

ELECTRIC POWER COMPONENTS and SYSTEMS

Volume 36, Number 7
2008

Contents

- Design of State Estimator Measurements Based on Condition Indicators
Mark J. Rice, Gerald T. Heydt, Weiqing Jiang, and Vijay Vittal 665
- A Comparative Study of PI, Fuzzy, and ANN Controllers for Chopper-fed DC Drive
with Embedded Systems Approach
N. Senthil Kumar, V. Sadasivam, and H. M. Asan Sukriya 680
- Adaptive Direct Torque Control of Induction Motors
Maher Sidani, Fouad Mrad, and Farid Chaaban 696
- Economic Dispatch Using an Enhanced Hopfield Neural Network
A. Y. Abdelaziz, S. F. Mekhamer, M. A. L. Badr, and M. Z. Kamh 719
- Chaos Control in Vector-controlled Induction Motor Drive
A. Bedri Ozer and Erhan Akin 733
- Stator Winding Inter-turn Insulation Fault Detection in Induction Motors by
Symmetrical Components Method
M. S. Ballal, H. M. Suryawanshi, and Mahesh K. Mishra 741
- Static Characteristics of Doubly-salient Brushless Machines Having Magnets in the
Stator Considering End-effect
Wei Hua and Ming Cheng 754
