FEATURES

- 13 Translating science to nutrition practice.** Professor Peter van Bladeren, Dr Hilary Green and Professor Bruce German argue for a multidisciplinary approach in food science today
- 16 Salt, taste and health.** Drs Stéphanie Michlig and Johannes le Coutre discuss the molecular basis of taste perception with reference to salt and blood pressure regulation
- 20 Lipids in wheat flour and breadmaking.** Dr Li Day notes the important role of flour lipids in breadmaking processes
- 23 Using nutritional data in the food industry.** Susan Church and Claudia Krines provide an update on activities in the EuroFIR Network of Excellence
- 27 Timely pathogen detection supports new food safety measures.** Dr Pradip Patel discusses the US FDA's Food Protection Plan and describes a novel pathogen detection technology
- 30 DHA through the ages: lifelong health with omega-3s.** Anne Davis examines the potential benefits of DHA omega-3 at different stages of life
- 34 Application of proteomics to understand meat quality.** Drs Kristin Hollung and Eva Veiseth use proteomics to investigate the molecular mechanisms underlying meat quality
- 37 The Training and Career Development Network – for young European food scientists.** Dr Indrawati Oey and colleagues discuss the training component of the EC-funded NovelQ project
- 41 Emerging applications for traceability systems and implications for consumers.** Olivia Howell Davies and colleagues consider the benefits of food traceability
- 45 Back to the future in a low saturated world?** Dr Niall Young and Paul Wassell explore ways to control the trans content of oil blends
- 48 Food and beverage concepts for measurable health benefits.** Matthias Sass discusses the concepts of glycaemic index and glycaemic load
- 50 An FAO programme for improving the quality and safety of fresh fruits and vegetables.** Drs Maya Piñeiro and Masami T. Takeuchi report on work to prevent hazards in the food chain

REGULARS

- 4 Editorial
- 4 International and Home News
- 8 IFST News
- 54 Products and Services

Articles are also welcome. Notes for contributors are available from the Editor. All submitted material is edited but not refereed. Publication of unsolicited material is not guaranteed.
