

MEASUREMENT TECHNIQUES

A translation of *Izmeritel'naya Tekhnika and Metrologiya*

Volume 51, Number 7

July, 2008

CONTENTS

GENERAL PROBLEMS OF METROLOGY AND MEASUREMENT TECHNIQUE

Estimating Measurement Uncertainty on Using Software – A. G. Chunovkina, V. A. Slaev, A. V. Stepanov, and N. D. Zvyagin	699
Optimizing a Data Acquisition System for the Nonstationary Information Energy State by Deterministic and Fuzzy Methods – Kh. G. Asadov and N. A. Nabiev	706
Statistical Evaluation of Observations with Level Quantization – D. A. Masterenko	711

LINEAR AND ANGULAR MEASUREMENTS

A Correlation Method of Estimating Object Coordinates in Digital Images from Optoelectronic Systems – E. A. Samoilin	718
Six-Axis Coordinate Measuring Machines – V. G. Fedorov	724
Measurement of the Thickness of Ice by Means of a Frequency-Modulated Radiometer – I. V. Baranov, V. V. Ezerskii, and A. Yu. Kaminskii	726
A Method of Reducing the Random Error of a Dynamic Laser Goniometer – P. A. Pavlov	734

OPTOPHYSICAL MEASUREMENTS

Modeling the Influence of Edge Effects on Refraction of a Laser Beam by a Temperature Inhomogeneity – K. M. Lapitskii, I. L. Raskovskaya, and B. S. Rinkevichyus	740
---	-----

TIME AND FREQUENCY MEASUREMENTS

The Parametric Stability of Pulsar Time – A. E. Avramenko	747
---	-----

MECHANICAL MEASUREMENTS

A Generalized Equation for the Saturation Vapor Pressure of Individual Substances – M. S. Rozhnov, D. N. Mel'nik, and P. A. Chmykhalo	755
--	-----

THERMAL MEASUREMENTS

Investigation of the Characteristics of a Television Pyrometer with a Built-In Temperature Calibrator – V. A. Karachinov, S. B. Toritsin, and D. V. Karachinov	762
The Use of Multivariate Correlation to Improve the Resolution of the Monitoring of the Heat Treatment of Critical Components – V. A. Sandovskii and A. I. Uvarov	767

ELECTROMAGNETIC MEASUREMENTS

The Limit Sensitivity of a Transformer Variable Electric Field Sensor in the Sea – V. G. Maksimenko	777
--	-----

CONTENTS

(continued)

RADIO MEASUREMENTS

A Hydrodynamic Model of the Electric Strength of Dielectric Diodes – V. M. Bogomol'nyi	781
The Limitation of the Dynamic Range of a Spectrum Analyzer Due to Nonlinear Processes in the Mixer – I. P. Sivokon' and S. A. Sinel'nikov	786
Radiofrequency Temperature-Independent Measurements of the Density of Liquefied Hydrocarbon Gases – A. S. Sovlukov and V. I. Tereshin	791

ACOUSTIC MEASUREMENTS

Choice of Location of a Receiving Hydroacoustic Transducer During Measurement of Standard Vibroacoustic Noise – A. N. Kryuchkov and V. S. Kolmogorov	794
Method of Acoustic Sensor Diagnosis – M. S. Slobodyan, S. A. Shishigin, and S. M. Slobodyan	798

PHYSICOCHEMICAL MEASUREMENTS

Particle Size Fraction Monitoring of Dispersion Liquids – M. A. Karabegov	802
---	-----

ERRATUM	810
---------------	-----
