

Materials Science and Technology

November 2008 Volume 24 Number 11

- 1293 Ultrasonic induced structural modification in Mg alloys**
D. Shepelev, G. Oshri, P. Graznov, G. Goren-Muginstein, L. Moldavsky, K. Shuster, M. Fichman and M. Bamberger
- 1299 Deposition process, microstructure and mechanical behaviours of RF magnetron sputtered (Ti,Al)N thin films**
H. S. Yang, Y. H. Lu, X. He, X. T. Xiong, L. J. Qiao and Y. B. Wang
- 1304 Degassing of magnesium alloy by rotating impellar degasser: Part 1 – Mathematical modelling**
Z. C. Hu, E. L. Zhang and S. Y. Zeng
- 1309 Synthesis mechanism and properties of Mg–Mg₂Ni composite hydrogen storage alloy produced by hydriding combustion synthesis**
D. M. Liu, Y. F. Zhu and L. Q. Li
- 1313 Effect of solid solution treatment on semisolid microstructure of dendritic zinc alloy ZA27**
T.-J. Chen, Y. Hao, Y.-D. Li and Y. Ma
- 1321 *In situ* silicon particle reinforced ZA27 composites: Part 1 – Microstructures and tensile properties**
T. J. Chen, C. R. Yuan, M. F. Fu, Y. Ma, Y. D. Li and Y. Hao
- 1333 Effect of grain size and indium addition on tensile characteristics of Al–1Si alloy**
A. M. Abd El-Khalek
- 1340 Effect of process parameters on deformation and temperature rise during forging of TC6 alloy disc**
M.-Q. Li, A.-M. Xiong and H. Lin
- 1346 Interfacial phenomena of cold metal transfer (CMT) welding of zinc coated steel and wrought aluminium**
H. T. Zhang, J. C. Feng and P. He
- 1350 Finite element analysis for inductive reheating process of continuously cast steel billets**
X. Z. Wu, C. S. Wang and J. S. Wang
- 1354 Effect of prior austenite characteristics on mechanical properties of thermomechanically processed multiphase TRIP assisted steels**
S. M. K. Hosseini, A. Zarei-Hanzaki, E. Essadiqi and S. Yue
- 1362 Thermal expansive behaviour of plasma sprayed Al–SiC_p composites**
M. C. Gui, S. B. Kang and K. Euh
- 1369 Effect of silver on precipitation response of Al–Li–Cu–Mg alloys**
A. K. Khan and J. S. Robinson
- 1378 Comparative experimental study on effects of conventional and ultrasonic deep cold rolling processes on Ti–6Al–4V**
A. T. Bozdana and N. N. Z. Gindy
- 1385 Numerical computing and experimental validation of effective elastic properties of 2D multilayered C/SiC composites**
H. B. Wang, W. H. Zhang, Y. J. Xu and Q. F. Zeng
- 1399 Effect of sintering temperature on BaO–Al₂O₃–SiO₂ glass ceramic coating for carbon fibre reinforced silicon carbide matrix composites**
X. H. Zheng, Y. G. Du, J. Y. Xiao, W. J. Zhang and C. Y. Liang
