

# Materials Science and Technology

May 2008 Volume 24 Number 5

- 505 **Literature review Biocompatible alumina ceramic for total hip replacements**  
P. Zeng
- 517 **Transient liquid phase bonding of dissimilar nickel base superalloys – wettability, microstructure and mechanical properties**  
R. Aluru, W. F. Gale, S. V. Chitti, N. Sofyan, R. D. Love and J. W. Fergus
- 529 **Effect of filler alloy composition on post-weld heat treatment cracking in GTA welded cast Inconel 738LC superalloy**  
R. K. Sidhu, N. L. Richards and M. C. Chaturvedi
- 540 **Numerical analysis of particle transport during solidification using models based on stochastic differential equation**  
S. Ganguly and S. Chakraborty
- 547 **Experimental technique for observation of three-dimensional metallography in brass and carbon steel**  
M. Okayasu, T. Ishikawa, M. Mizuno and T. Ono
- 553 **Effect of tool rotational and welding speeds on microstructural and mechanical characteristics of friction stir welded A319 cast Al alloy**  
T. S. Mahmoud, A. M. Gaafer and T. A. Khalifa
- 560 **Effect of combined application of electromagnetic fields on horizontal direct chill casting of 7050 aluminium alloy**  
Q. F. Zhu, Z. H. Zhao, J. Z. Cui, Y. B. Zuo and X. J. Wang
- 567 **Temperature dependence of mechanical properties of zinc and Zircaloy measured using miniaturised disc tests**  
G. M. Hughes and P. E. J. Flewitt
- 575 **Biocompatibility of uncoated and diamond-like carbon coated Ti-20%Hf alloy**  
S. D. Kuhn, K. Sridharan, Z. Hao, P. Muir, M. Suresh, A. Singh and S. V. Raj
- 579 **Al,Zr-FeSi preconditioning of grey cast irons**  
I. Ripsan, M. Chisamera, S. Stan, P. Toboc, C. Ecob and D. White
- 585 **Synthesis of large scale GaN nanowires by ammoniating Ga<sub>2</sub>O<sub>3</sub>/Co thin films deposited on Si(111) substrates**  
L. X. Qin, C. S. Xue, H. Z. Zhuang, Z. Z. Yang, J. H. Chen, H. Li and D. D. Zhang
- 589 **Comparative study of antimicrobial and photocatalytic activity in titania encapsulated composite nanoparticles with different dopants**  
R. Venkatsubramanian, R. S. Srivastava and R. D. K. Misra
- 596 **Al as solid solution hardener in steels**  
B. Mintz, W. D. Gunawardana and H. Su
- 601 **Influence of Al on strength and impact behaviour of hot rolled plain C-Mn steels**  
B. Mintz, W. D. Gunawardana and H. Su
- 607 **Deformation behaviour and formability of LZ90 Mg alloy**  
C. C. Hsu, H. Y. Wu, G. Z. Zhou, C. H. Chiu and S. Lee
- 612 **Biomimetic synthesis of spherical nano-hydroxyapatite with polyvinylpyrrolidone as template**  
C. F. Qiu, X. F. Xiao, R. F. Liu and H. D. She
- 618 **Preparation of Fe and Co based amorphous wires by in-water quenching process**  
A. Kumar, R. J. Singh, A. Mitra and A. K. Panda
- 623 **High frequency induction brazing of TiC cermets to steel with Ag-Cu-Zn foil**  
L. X. Zhang, J. C. Feng and H. B. Liu
- 627 **Short communication Calculation of valence electron structures and melting points in Ti-Al alloys with interstitial impurities**  
J. Z. Peng, X. Z. Yang, F. C. Zhou and M. F. Grey
