

Water Science and Technology

Volume 57, Number 12

Contents

- 1857 Pumped flow biofilm reactors (PFBR) for treating municipal wastewater
E. O'Reilly, M. Rodgers and X.-M. Zhan
- 1867 Characterizing temporal development of biofilm porosity using artificial neural networks
Raaja Raajan Angathevar Veluchamy, Haluk Beyenal and Zbigniew Lewandowski
- 1873 Impact of chemical cleaning and air-sparging on the critical and sustainable flux in a flat sheet membrane bioreactor for municipal wastewater treatment
G. Guglielmi, D. Chiarani, D. P. Saroj and G. Andreottola
- 1881 A two-stage subsurface vertical flow constructed wetland for high-rate nitrogen removal
Guenter Langergraber, Klaus Leroch, Alexander Pressl, Roland Rohrhofer and Raimund Haberl
- 1889 Analysis of nitrifying bacterial communities in aerobic biofilm reactors with different DO conditions using molecular techniques
J. J. Park, I. G. Byun, J. C. Yu, S. R. Park, D. J. Ju, S. H. Hur and T. J. Park
- 1901 Resources and nutrients oriented greywater treatment for non-potable reuses
Fangyue Li, Joachim Behrendt, Knut Wichmann and Ralf Otterpohl
- 1909 The efficiency of biological aerobic treatment of piggery wastewater to control nitrogen, phosphorus, pathogen and gas emissions
F. Béline, M. L. Daumer, L. Loyon, A. M. Pourcher, P. Dabert, F. Guiziou and P. Peu
- 1915 The use of tritium content as an indicator of the groundwater contamination by sanitary landfills leachates in the region of Belo Horizonte City, Brazil
J. V. Bandeira, R. M. Mingote, M. B. Baptista, D. M. Oliveira and F. P. Lima
- 1921 Nitrogen loading on groundwater from the discharge of on-site domestic wastewater effluent into different subsoils in Ireland
L. W. Gill, C. O'Suilleabhain, B. D. R. Misstear, P. Johnston, T. Patel and N. O'Lunaigh
- 1927 Ecological engineering of bioaugmentation from side-stream nitrification
R. C. Smith, P. E. Saikaly, K. Zhang, S. Thomatos and D. B. Oerther
- 1935 Semi-quantitative analysis of a specific database on priority and emerging substances in wastewater and sludge
S. Martin Ruel, J. M. Choubert, P. Ginestet and M. Coquery
- 1945 An investigation on suspended solids sources in urban stormwater runoff using ^7Be and ^{210}Pb as tracers
Chengqing Yin and Liqing Li

- 1951 Utilization of a hybrid sequencing batch reactor (HSBR) as a decentralized system of domestic wastewater treatment
R. H. R. da Costa, V. S. Souto, A. T. S. Prelhaz, L. G. L. Neto and D. B. Wolff
- 1957 Impacts of a participatory approach to assess sustainable sewage treatment technologies for urban fringe of Surat city in India
A. N. Vashi and N. C. Shah
- 1963 Secondary effluent reclamation: combination of pre-treatment and disinfection technologies
L. Alcalde, M. Folch, J. C. Tapias, F. Martínez, S. Enguñanos and I. Bernácer
- 1969 Reductive dehalogenation of iopromide by zero-valent iron
M. Stieber, A. Putschew and M. Jekel
- 1977 Recovery oriented phosphorus adsorption process in decentralized advanced Johkasou
Y. Ebie, T. Kondo, N. Kadoya, M. Mouri, O. Maruyama, S. Noritake, Y. Inamori and K. Xu
- 1983 Use of comprehensive two-dimensional gas chromatography for the broad screening of hazardous contaminants in urban wastewaters
Gaëlle Semard, Auguste Bruchet, Pascal Cardinaël and Jean-Philippe Bouillon
- 1991 Performance of an optimally filled discontinuous bioreactor degrading 4-chlorophenol
Iván Moreno-Andrade and Germán Buitrón
- 1999 Fate of effluent organic matter (EfOM) and natural organic matter (NOM) through riverbank filtration
S. K. Maeng, S. K. Sharma, A. Magic-Knezev and G. Amy
- 2009 Application of metaproteomic analysis for studying extracellular polymeric substances (EPS) in activated sludge flocs and their fate in sludge digestion
C. Park and R. F. Helm
- 2017 Alpine infrastructure in Central Europe: integral evaluation of wastewater treatment systems at mountain refuges
N. Weissenbacher, E. Mayr, T. Niederberger, C. Aschauer, S. Lebersorger, G. Steinbacher and R. Haberl
- 2023 The effect of flow equalisation and prefermentation on the sludge production and sludge characteristics in a BNR plant
A. Mikola, J. Rautiainen and H. Kiuru
- 2031 An insight into cathode options for microbial fuel cells
O. Lefebvre, A. Al-Mamun, W. K. Ooi, Z. Tang, D. H. C. Chua and H. Y. Ng
- 2039 Environmental assessment and cost estimation of drinking water and wastewater systems for transition areas in Sweden
A. Norström, Å. Erlandsson and E. Kärrman
- 2043 Degradation of macromolecular tannic acid by O_3/H_2O_2
S. Ji-min, L. Xue-yan, C. Zhong-lin, G. Xiao-hong, Z. Xue and X. Zhen-zhen,
- 2051 Practical application of wastewater reuse in tourist resorts
D. Antakyali, J. Krampe and H. Steinmetz
- 2059 Characterisation and optimisation of individual wastewater treatment systems
Nina Moelants, Griet Janssen, Ilse Smets and Jan Van Impe
