Water Science and Technology

Volume 57, Number 9

Contents

1301 Developing a framework for continuous use of models in daily management and operation of WWTPs: a life cycle approach
Gürkan Sin, Dirk J. W. De Pauw, Stefan Weijers and Peter A. Vanrolleghem

1309 Evaluation of street sweeping effectiveness as a stormwater management practice using statistical power analysis
Joo-Hyon Kang and Michael K. Stenstrom

1317 The reliability of sediment transport predictions in sewers: influence of hydraulic and morphological uncertainties
Robert Banasiak and Simon Tait

1329 Occurrence and fate of heavy metals in large wastewater treatment plants treating municipal and industrial wastewaters
G. Carletti, F. Fatone, D. Bolzonella and F. Cecchi

1337 Probabilistic modelling of combined sewer overflow using the First Order Reliability Method
S. Thorndahl, K. Schaarup-Jensen and J. B. Jensen

1345 Nutrient removal process selection for planning and design of large wastewater treatment plant upgrade needs
M. Urgun-Demirtas, K. R. Pagilla, T. E. Kunetz, J. P. Sobanski and K. P. Law

1349 Comparison of pollutant loading estimation using different land uses and stormwater characteristics in Ballona Creek Watershed
Mi-Hyun Park and Michael K. Stenstrom

1355 Phosphorus release from agriculture to surface waters: past, present and future in China
M. Chen and J. Chen

1363 *In situ* measurements of shear stresses of a flushing wave in a circular sewer using ultrasound
P. Staufer and J. Pinnekamp

1369 Enhancement of food waste digestion in the hybrid anaerobic solid-liquid system
X. Y. Liu, H. B. Ding, S. Sreeramachandran, O. Stabnikova and J. Y. Wang

1375 Assessing urban stormwater toxicity: methodology evolution from point observations to longitudinal profiling
Lee Grapentine, Quintin Rochfort and Jiri Marsalek

1383 Membrane technology for sustainable treated wastewater reuse: agricultural, environmental and hydrological considerations
Gideon Oron, Leonid Gillerman, Amos Bick, Yossi Manor, Nisan Buriakovsky and Joseph Hagin

1389 Evaluation of uncertainties in settling velocities of particles in urban stormwater runoff
A. Torres and J.-L. Bertrand-Krajewski

1397 Utilising laboratory experiments as a first step to introduce primary sludge hydrolysis in full-scale
K. Jönsson, A. Pottier, I. Dimitrova and U. Nyberg

IWA Publishing

1405 Estimation of uncertainty in long term combined sewer sediment behaviour predictions, a UK case study
A. N. A. Schellart, F. A. Buijs, S. J. Tait and R. M. Ashley

1413 Analysing sludge balance in activated sludge systems with a novel mass transport model
M. Patziger, H. Kainz, M. Hunze and J. Józsa

1421 Water Renew systems: wastewater polishing using renewable energy crops
A. Sugiura, S. F. Tyrrel, I. Seymour and P. J. Burgess

1429 The transfer of infiltration measurement results to other sewers by means of discriminant analysis
Torsten Franz and Peter Krebs

1437 Upgrading of wastewater treatment plants for nutrient removal under optimal use of existing structures
S. Winkler, M. Gasser, W. Schättle, D. Kremmel, P. Kletzmayr and N. Matsché

1445 The effect of reclaimed wastewater on the quality and growth of grapevines
L. G. Mendoza-Espinosa, A. Cabello-Pasini, V. Macias-Carranza, W. Daessle-Heuser, M. V. Orozco-Borbón and A. L. Quintanilla-Montoya

1451 A cost comparison of traditional drainage and SUDS in Scotland
A. Duffy, C. Jefferies, G. Waddell, G. Shanks, D. Blackwood and A. Watkins

1461 Reducing health risks from wastewater use in urban and peri-urban sub-Saharan Africa: applying the 2006 WHO guidelines
P. Drechsel, B. Keraita, P. Amoah, R. C. Abaidoo, L. Raschid-Sally and A. Bahri

1467 The main wastewater treatment plant of Vienna: favourable operation conditions as a consequence of well designed tender procedures
T. Partaj, M. Papp and J. Weiss

1475 Viability of increasing the tariff of freshwater for irrigation as a tool to stimulate wastewater reuse in the MENA region
M. Abu-Madi, R. Al-Sa'ed, O. Braadbaart and G. Alaerts

1483 Generation of diurnal variation for influent data for dynamic simulation
G. Langergraber, J. Alex, N. Weissenbacher, D. Woerner, M. Ahnert, T. Frehmann, N. Halft, I. Hobus, M. Plattes, V. Spering and S. Winkler
