

Journal of Hydroinformatics

Official Journal of the IAHR-IWA-IAHS Joint Committee on Hydroinformatics

volume 10 | issue 1 | January 2008

Contents

- 1 Prologue: special issue on data driven modeling and evolutionary optimization for river basin management
Avi Ostfeld and Dimitri P. Solomatine
- 3 Data-driven modelling: some past experiences and new approaches
Dimitri P. Solomatine and Avi Ostfeld
- 23 Multistage stochastic linear programming model for daily coordinated multi-reservoir operation
Yongdae Lee, Sheung-Kown Kim and Ick Hwan Ko
- 43 Use of principal component analysis, factor analysis and discriminant analysis to evaluate spatial and temporal variations in water quality of the Mekong River
Sangam Shrestha, Futaba Kazama and Takashi Nakamura
- 57 Flooding probability of urban area estimated by decision tree and artificial neural networks
Jeng-Chung Chen, Shu-Kuang Ning, Ho-Wen Chen and Ching-Sung Shu
- 69 Optimization methods applied for sustainable management of water-scarce basins
Cem P. Cetinkaya, Okan Fistikoglu, Kurt Fedra and Nilgun B. Harmancioglu
- 97 Calibrating a watershed simulation model involving human interference: an application of multi-objective genetic algorithms
Mohamad I. Hejazi, Ximing Cai and Deva K. Borah
