

Contents

- 133 Integrated simulation of drinking water treatment
Luuk Rietveld, Alex van der Helm, Kim van Schagen, René van der Aa and Hans van Dijk
- 143 The behaviour and cholinesterase inhibitory activity of fenthion and its products by light and chlorination
Maiko Tahara, Reiji Kubota, Hiroyuki Nakazawa, Hiroshi Tokunaga and Tetsuji Nishimura
- 153 The chemical water quality in roof-harvested water cisterns in Bermuda
A. J. Peters, K. Weidner and C. Howley
- 165 The effect of chlorine demand on estimation of the inactivation rate constant
M. Sivaganesan, E. W. Rice and N. J. Adcock
- 171 Fixed-bed adsorption in drinking water treatment: a critical review on models and parameter estimation
Eckhard Worch
- 185 Case study: reducing manganese (Mn^{++}) level in surface water with natural manganese-coated sand in Sinopec Shanghai Ltd
Kai Yang, Yingwen Xue, Jiajie He and Xiaojun Yang
- Practical paper**
- 195 Ex-post evaluation of a water distribution network upgrading project
V. K. Kanakoudis
