

JOURNAL OF
Micro/Nanolithography,
MEMS, and MOEMS

VOLUME 7

NUMBER 4

OCT-DEC 2008

Article Numbers: Each paper is designated by a unique six-digit article number. Use of article numbers in place of traditional page numbers allows articles to be fully citable as soon as they are published online. Within each paper, the article number appears on each printed page with a hyphen followed by a consecutive page number. For more information see <http://spie.org/jm3>.

References to papers published in this journal starting with Volume 6 should be cited using the six-digit citation identifier (CID) instead of page numbers; e.g., *J. Micro/Nanolith. MEMS MOEMS* **6**, 013001 (2007).

About the Cover: *The figure is from the paper "Source for extreme ultraviolet lithography by the tabletop storage ring MIRRORCLE," by H. Yamada et al.*
