

Contents

Editorial <i>J. Gilbert, T. Phillips and E. Anklam</i>	1
Modelling consumer exposures to nutrients and additives in animal products <i>D.R. Tennant, P. Bequet and D. Jans</i>	2
Dietary exposure of secondary school students in Hong Kong to benzoic acid in prepackaged non-alcoholic beverages <i>Ka Ming Ma, Cheok Man Chan, Stephen Wai Cheung Chung, Yuk Yin Ho and Ying Xiao</i>	12
Determination of bixin and norbixin in meat using liquid chromatography and photodiode array detection <i>H. Noppe, S. Abuín Martínez, K. Verheyden, J. Van Loco, R. Companyó Beltran and H.F. De Brabander</i>	17
Stability of added iodine in processed cereal foods <i>B.M. Thomson</i>	25
Haloanisole and halophenol contamination in Spanish aged red wines <i>M.L. Copete, A. Zalacain, C. Lorenzo, J.M. Carot, M.D. Esteve, M. Climent and M.R. Salinas</i>	32
Determination of fluoroquinolones in aquaculture products by ultra-performance liquid chromatography-tandem mass spectrometry (UPLC-MS/MS) <i>J.N. Pearce, B.G. Burns, J.M. van de Riet, M.D. Casey and R.A. Potter</i>	39
Semicarbazide is non-specific as a marker metabolite to reveal nitrofurazone abuse as it can form under Hofmann conditions <i>Justin G. Bendall</i>	47
Thermal stability of antiparasitic macrocyclic lactones milk residues during industrial processing <i>F.A. Imperiale, C. Farias, A. Pis, J.M. Sallovitz, A. Lifschitz and C. Lanusse</i>	57
Validation of the procedure for the determination of maduramicin in concentrates, premixes, and feeds by liquid chromatography <i>G. Tavčar-Kalcher, K. Pavšič-Vrtač and A. Vengušt</i>	63
Influence of post-harvest treatments with fludioxonil and soy lecithin co-application in controlling blue and grey mould and fludioxonil residues in Coscia pears <i>M. Schirra, S. D'Aquino, Q. Migheli, F.M. Pirisi and A. Angioni</i>	68
Purification of <i>Candida guilliermondii</i> and <i>Pichia ohmeri</i> killer toxin as an active agent against <i>Penicillium expansum</i> <i>Alexandre Rodrigo Coelho, Masahiko Tachi, Fernando Carlos Pagnocca, Gisele Maria Andrade Nobrega, Fernando Leite Hoffmann, Ken-ichi Harada and Elisa Yoko Hirooka</i>	73
Agaritine content of 53 <i>Agaricus</i> species collected from nature <i>V. Schulzová, J. Hajslova, R. Peroutka, J. Hlavasek, J. Gry and H.C. Andersson</i>	82
Fumonisin B ₂ production by <i>Aspergillus niger</i> in Thai coffee beans <i>P. Noonim, W. Mahakarnchanakul, K.F. Nielsen, J.C. Frisvad and R.A. Samson</i>	94

Purification of patulin from *Penicillium expansum* culture: high-speed counter-current chromatography (HSCCC) versus preparative high-performance liquid chromatography (prep-HPLC)

J. He, R. Tsao, R. Yang and T. Zhou

101

Aflatoxin-albumin adducts and correlation with decreased serum levels of vitamins A and E in an adult Ghanaian population

L. Tang, L. Xu, E. Afriyie-Gyawu, W. Liu, P. Wang, Y. Tang, Z. Wang, H.J. Huebner, N.-A. Ankrah, D. Ofori-Adjei, J.H. Williams, J.-S. Wang and T.D. Phillips

108

Effects of live yeast cell supplementation to high concentrate diets on the toxicokinetics of ochratoxin A in sheep

R. Blank and S. Wölffram

119

Determination of sterigmatocystin in cheese by high-performance liquid chromatography-tandem mass spectrometry

A. Veršilovskis, C. Van Peteghem and S. De Saeger

127

Determination of phthalates in raw bovine milk by gas chromatography/time-of-flight mass spectrometry (GC/TOF-MS) and dietary intakes

Meekyung Kim, Seon Jong Yun and Gab-Soo Chung

134

A sensitive method for the determination of chlorine-36 in foods using accelerator mass spectrometry

M. Baxter, L. Castle, H.M. Creus, M. Rose, C. Garner, G. Lappin and D. Leong

139
