Food Additives & Contaminants

Review of the use of phytosterols as a detection tool for adulteration of olive oil with hazelnut oil <i>S. Azadmard-Damirchi</i>	1
Olive oil adulterated with hazelnut oils: simulation to identify possible risks to allergic consumers <i>M. Arlorio, J.D. Coisson, M. Bordiga, F. Travaglia, C. Garino, L. Zuidmeer, R. Van Ree, M.G. Giuffrida, A. Conti and A. Martelli</i>	11
A RIKILT yeast estrogen bioassay (REA) for estrogen residue detection in urine of calves experimentally treated with 17 β -estradiol <i>S. Divari, R. De Maria, F.T. Cannizzo, F. Spada, C. Mulasso, T.F.H. Bovee, P. Capra, M. Leparati and B. Biolatti</i>	19
Mercury and methylmercury intake estimation due to seafood products for the Catalanian population (Spain) <i>S. Rodellar, M. Fontcuberta, J.F. Arqués, J. Calderon, L. Ribas Barba and L. Serra-Majem</i>	29
Non-essential and essential trace element concentrations in meat from cattle reared under organic, intensive or conventional production systems <i>I. Blanco-Penedo, M. López-Alonso, M. Miranda, J. Hernández, F. Prieto and R.F. Shore</i>	36
Assessment of deoxynivalenol (DON) adsorbents and characterisation of their efficacy using complementary <i>in vitro</i> tests <i>S. Cavret, N. Laurent, B. Videmann, M. Mazallon and S. Lecoeur</i>	43
Effect of the inclusion of adsorbents on aflatoxin B ₁ quantification in animal feedstuffs <i>A. Gallo, F. Masoero, T. Bertuzzi, G. Piva and A. Pietri</i>	54
Mycotoxin detection in infant formula milks in Italy <i>V. Meucci, E. Razzuoli, G. Soldani and F. Massart</i>	64
Mycotoxic nephropathy in Bulgarian pigs and chickens: complex aetiology and similarity to Balkan Endemic Nephropathy <i>S.D. Stoev, M.F. Dutton, P.B. Njobeh, J.S. Mosonik and P.A. Steenkamp</i>	72
Rapid screening of tetrodotoxin in urine and plasma of patients with puffer fish poisoning by HPLC with creatinine correction <i>C.-H. Yu, C.-F. Yu, S. Tam and P.H.-F. Yu</i>	89
Occurrence of extractable ink residuals in packaging materials used in the Czech Republic <i>Z. Dupáková, J. Dobiáš, L. Votavová, K. Klaudivová and M. Voldrich</i>	97
Validation of a liquid chromatography–mass spectrometry method for determining the migration of primary aromatic amines from cooking utensils and its application to actual samples <i>R. Sendón, J. Bustos, J.J. Sánchez, P. Paseiro and M^a Eugenia Cirugeda</i>	107
Effect of high-pressure/temperature (HP/T) treatments of in-package food on additive migration from conventional and bio-sourced materials <i>M. Mauricio-Iglesias, S. Jansana, S. Peyron, N. Gontard and V. Guillard</i>	118
