Food Additives & Contaminants

Characterization, antigenicity and detection of fish gelatine and isinglass used as processing aids in wines <i>Patrick Weber, Hans Steinhart and Angelika Paschke</i>	273
Furan in coffee: pilot studies on formation during roasting and losses during production steps and consumer handling <i>H. Guenther, K. Hoenicke, S. Biesterveld, E. Gerhard-Rieben and I. Lantz</i>	283
Screening for tetracycline residues in food products of animal origin in the State of Kuwait using Charm II radio-immunoassay and LC/MS/MS methods <i>Hani M. Al-Mazeedi, Alaa B. Abbas, Hussam F. Alomirah, Wafaa Y. Al-Jouhar, Siham A. Al-Mufly, Mohamed M. Ezzelregal and Rashed A. Al-Owaish</i>	291
Physiologically based pharmacokinetic (PBPK) model for residues of lipophilic pesticides in poultry <i>D.J. MacLachlan</i>	302
Predicted intake of trace elements and minerals via household drinking water by 6-year-old children from Krakow, Poland. Part 5: Zinc <i>H. Barton</i>	315
Mercury and methylmercury bioaccessibility in swordfish <i>S. Torres-Escribano, D. Vélaz and R. Montoro</i>	327
Development of chemiluminescence enzyme-linked immunosorbent assay for the screening of metolcarb and carbaryl in orange juice, cabbage and cucumber <i>J.W. Sun, Y. Zhang and S. Wang</i>	338
A new tool for the evaluation of crop residue trial data (day-zero-plus decline) <i>D.J. MacLachlan and D. Hamilton</i>	347
Exposure to aflatoxins in Japan: risk assessment for aflatoxin B ₁ <i>Y. Sugita-Konishi, T. Sato, S. Saito, M. Nakajima, S. Tabata, T. Tanaka, H. Norizuki, Y. Itoh, S. Kai, K. Sugiyama, Y. Kamata, N. Yoshiike and S. Kumagai</i>	365
Naturally occurring aflatoxin M ₁ in raw bulk milk from farm cooling tanks in Argentina <i>V.A. Alonso, M.P. Monge, A. Larriestra, A.M. Dalcero, L.R. Cavagliero and S.M. Chiacchiera</i>	373
Packaged food intake by British children aged 0 to 6 years <i>E. Foster, J.C. Mathers and A.J. Adamson</i>	380
Evidence that isopropylthioxanthone (ITX) is devoid of anxiolytic and sedative effect <i>E. Campioli, M. Zavatti, R. Avallone, G. Puià, G. Losi and M. Baraldi</i>	389
Migration behaviour of silicone moulds in contact with different foodstuffs <i>Ruediger Helling, Katja Kutschbach and Thomas Joachim Simat</i>	396
Safety evaluation of food contact paper and board using chemical tests and <i>in vitro</i> bioassays: role of known and unknown substances <i>U. Honkalampi-Hämäläinen, E.L. Bradley, L. Castle, I. Severin, L. Dahbi, O. Dahlman, J.-C. Lhuguenot, M.A. Andersson, P. Hakulinen, D. Hoornstra, J. Mäki-Paakkanen, M. Salkinoja-Salonen, L. Turco, A. Stammati, F. Zucco, A. Weber and A. von Wright</i>	406
