Food Additives & Contaminants

Foreword	259
The ecological context of pyrrolizidine alkaloids in food, feed and forage: an overview <i>M. Boppré</i>	260
Plants containing pyrrolizidine alkaloids: toxicity and problems <i>H. Wiedenfeld</i>	282
Pyrrolizidine alkaloid toxicity in livestock: a paradigm for human poisoning? <i>R.J. Molyneux, D.L. Gardner, S.M. Colegate and J.A. Edgar</i>	293
Pyrrolizidine alkaloids in food: a spectrum of potential health consequences <i>J.A. Edgar, S.M. Colegate, M. Boppré and R.J. Molyneux</i>	308
Pyrrolizidine alkaloids in food: downstream contamination in the food chain caused by honey and pollen <i>M. Kempf, M. Wittig, K. Schönfeld, L. Cramer, P. Schreier and T. Beuerle</i>	325
Pyrrolizidine alkaloids in honey: comparison of analytical methods <i>M. Kempf, M. Wittig, A. Reinhard, K. von der Ohe, T. Blacquièrre, K.-P. Raetzke, R. Michel, P. Schreier and T. Beuerle</i>	332
Pyrrolizidine alkaloids in honey and bee pollen <i>A. Dübecke, G. Beckh and C. Lüllmann</i>	348
Carry-over of pyrrolizidine alkaloids from feed to milk in dairy cows <i>L.A.P. Hoogenboom, P.P.J. Mulder, M.J. Zeilmaker, H.J. van den Top, G.J. Rummelink, E.F.A. Brandon, M. Klijstra, G.A.L. Meijer, R. Schothorst and H.P. Van Egmond</i>	359
