Food Additives & Contaminants

| | |
|--|-----|
| Foreword of the Guest Editors: Health Canada: Current Topics in Food Chemical Safety Research <i>R. Krska and D.F.K. Rawn</i> | 695 |
| Introduction <i>S.B. Godefroy</i> | 696 |
| Determination of melamine, ammeline, ammeline and cyanuric acid in infant formula purchased in Canada by liquid chromatography-tandem mass spectrometry <i>E. Brackeveld, B.P.-Y. Lau, S. Feng, C. Ménard and S.A. Tittlemier</i> | 698 |
| Gluten contamination in the Canadian commercial oat supply <i>T.B. Koerner, C. Cléroux, C. Poirier, I. Cantin, A. Alimkulov and H. Elamparo</i> | 705 |
| Paralytic shellfish poisoning (PSP) toxin binders for optical biosensor technology: problems and possibilities for the future: a review <i>K. Campbell, D.F.K. Rawn, B. Niedzwiadek and C.T. Elliott</i> | 711 |
| Formation of acrylamide at temperatures lower than 100°C: the case of prunes and a model study <i>A. Becalski, B. Brady, S. Feng, B.R. Gauthier and T. Zhao</i> | 726 |
| Design and characterization of a direct ELISA for the detection and quantification of leucomalachite green <i>G. Singh, T. Koerner, J.-M. Gelin, M. Abbott, B. Brady, A.-C. Huet, C. Charlier, P. Delahaut and S.B. Godefroy</i> | 731 |
| Levels of total mercury in predatory fish sold in Canada in 2005 <i>R.W. Dabeka, A.D. McKenzie and D.S. Forsyth</i> | 740 |
| Lead, cadmium and aluminum in Canadian infant formulae, oral electrolytes and glucose solutions <i>R. Dabeka, A. Fouquet, S. Belisle and S. Turcotte</i> | 744 |
| Application of isotope dilution mass spectrometry: determination of ochratoxin A in the Canadian Total Diet Study <i>J. Tam, P. Pantazopoulos, P.M. Scott, J. Moisey, R.W. Dabeka and I.D.K. Richard</i> | 754 |
| Ochratoxin A in cocoa and chocolate sampled in Canada <i>A.-M. Turcotte and P.M. Scott</i> | 762 |
| Surveys of rice sold in Canada for aflatoxins, ochratoxin A and fumonisins <i>J. Bansal, P. Pantazopoulos, J. Tam, P. Cavlovic, K. Kwong, A.-M. Turcotte, B.P.-Y. Lau and P.M. Scott</i> | 767 |
| Sampling of cereals and cereal-based foods for the determination of ochratoxin A: an overview <i>S.A. Tittlemier, E. Varga, P.M. Scott and R. Krska</i> | 775 |
| Determination of the cyanobacterial toxin cylindrospermopsin in algal food supplements <i>H. Liu and P.M. Scott</i> | 786 |
| Concentrations of bisphenol A in the composite food samples from the 2008 Canadian total diet study in Quebec City and dietary intake estimates <i>X.-L. Cao, C. Perez-Locas, G. Dufresne, G. Clement, S. Popovic, F. Beraldin, R.W. Dabeka and M. Feeley</i> | 791 |
| Determination of perchlorate in infant formula by isotope dilution ion chromatography/tandem mass spectrometry <i>Z. Wang, B.P.-Y. Lau, B. Tague, M. Sparling and D. Forsyth</i> | 799 |
| Brominated flame retardants in Canadian chicken egg yolks <i>D.F.K. Rawn, A. Sadler, S.C. Quade, W.-F. Sun, B.P.-Y. Lau, I. Kosarac, S. Hayward and J.J. Ryan</i> | 807 |
