

# Food Additives & Contaminants

PART A:

CHEMISTRY • ANALYSIS • CONTROL • EXPOSURE & RISK ASSESSMENT

**Risk Control and Food Safety**

**Proceedings of the 11<sup>th</sup> UJNR International Symposium on Toxic Microorganisms  
held in Tokyo March 4-9, 2012**

*Guest Editors: Shigeki Yamamoto and Kenneth A. Voss*

**Taylor & Francis**  
Taylor & Francis Group

# Food Additives & Contaminants: Part A

Volume 30

Number 8

August 2013

## Contents

### Foreword

Risk control and food safety  
S. Yamamoto and K.A. Voss

1349

### Articles

Quantitative determination of paralytic shellfish toxins in cultured toxic algae by LC-MS/MS  
R. Watanabe, R. Matsushima, T. Harada, H. Oikawa, M. Murata and T. Suzuki

1351

LC-MS/MS analysis of palytoxin analogues in blue humphead parrotfish *Scarus ovifrons* causing human poisoning in Japan  
T. Suzuki, R. Watanabe, R. Matsushima, K. Ishihara, H. Uchida, S. Kikutsugi, T. Harada, H. Nagai,  
M. Adachi, T. Yasumoto and M. Murata

1358

*Kudoa septempunctata* was recognised by Toll-like receptor 2 produced by a RAW 264 macrophage-like cell line  
T. Ohnishi, R. Oyama, H. Furusawa, N. Ohba, Y. Kamata and Y. Sugita-Konishi

1365

Utility of the phylotoxigenic relationships among trichothecene-producing *Fusarium* species for predicting their mycotoxin-producing potential  
M. Watanabe, T. Yonezawa, Y. Sugita-Konishi and Y. Kamata

1370

Breeding aflatoxin-resistant maize lines using recent advances in technologies – a review  
R.L. Brown, A. Menkir, Z.-Y. Chen, D. Bhatnagar, J. Yu, H. Yao and T.E. Cleveland

1382

Exposure and risk assessment for ochratoxin A and fumonisins in Japan  
Y. Sugita-Konishi, Y. Kamata, T. Sato, T. Yoshinari and S. Saito

1392

Toxicological evaluation and bioaccumulation potential of lolitrem B, endophyte mycotoxin in Japanese black steers  
N. Shimada, M. Yoshioka, O. Mikami, N. Tanimura, N. Yamanaka, M. Hanazumi, F. Kojima and S. Miyazaki

1402

Detection of masked mycotoxins derived from type A trichothecenes in corn by high-resolution LC-Orbitrap mass spectrometer  
H. Nakaqawa, S. Sakamoto, Y. Sago, M. Kushiro and H. Nagashima

1407

Alkaline cooking (nixtamalisation) and the reduction in the *in vivo* toxicity of fumonisin-contaminated corn in a rat feeding bioassay  
K.A. Voss, R.T. Riley, N.D. Moore and T.D. Burns

1415

Genomic paradigms for food-borne enteric pathogen analysis at the USFDA: case studies highlighting method utility, integration and resolution  
C.A. Elkins, M.L. Kotewicz, S.A. Jackson, D.W. Lacher, G.S. Abu-Ali and I.R. Patel

1422

Recent developments in molecular sub-typing of *Listeria monocytogenes*  
A.R. Datta, P. Laksanalamai and M. Solomotis

1437

Growth of *Listeria monocytogenes* in refrigerated ready-to-eat foods in Japan  
Y. Okada, I. Ohmuki, H. Suzuki and S. Igimi

1446

Prevalence of the main food-borne pathogens in retail food under the national food surveillance system in Japan  
Y. Hara-Kudo, H. Konuma, Y. Kamata, M. Miyahara, K. Takatori, Y. Onoue, Y. Sugita-Konishi and T. Ohnishi

1450

*Providencia alcalifaciens* causes barrier dysfunction and apoptosis in tissue cell culture: potent role of lipopolysaccharides on diarrheagenicity  
H. Asakura, Y. Momose, C.-H. Ryu, F. Kasuga, S. Yamamoto, S. Kumagai and S. Igimi

1459
