High Temperatures-High Pressures

Volume 39, Number 3, 2010

The metrological platform of LNE for measuring thermophysical properties of materials	181
BRUNO HAY, JACQUES HAMEURY, JEAN-RÉMY FILTZ, FRÉDÉRIQUE HALOUA AND RONAN MORICE	
Combined natural convection and radiation in humid air bounded by isothermal vertical walls	209
F. BEN NEJMA AND K. SLIMI	
A three-dimensional inverse radiation problem of parameter estimation	227
HAJER GRISSA, FAOUZI ASKRI, FETHI ALBOUCHI AND SASSI BEN NASRALLAH	
Pressure — volume relationship of Sodium Chloride at high temperature	243
S. K. SRIVASTAVA AND PALLAVI SINHA	
Analysis of nanomaterials under high pressure	251
RAGHUVESH KUMAR AND MUNISH KUMAR	
Prediction of dispersive second virial coefficients of heavy alkali metals by using <i>ab initio</i> calculation	267
MAHMOOD SANCHOOLI	
Book Review	277

ISSN: 0018-1544 • HTHP 39(3) 181-278 (2010)
