EDITORIAL POLICY

CEREAL CHEMISTRY® is an international journal publishing high-quality, scientific papers reporting significant, recent research. Acceptable research areas include those dealing with biochemistry, biotechnology, products, processes, and analytical procedures associated with cereals and other grain crops. Papers may be comprehensive reviews or reports of original investigations that make a definite contribution to existing knowledge. The content must not have been published or accepted for publication elsewhere, and papers must not be under consideration by another journal.

Paid advertisements are accepted. However, no endorsement or any statement of claims made in advertisements is assumed by this journal or by AACC International, Inc.

The current processing fees for CEREAL CHEMISTRY are \$300 (for the first five pages) and \$120 each page, or portion thereof, thereafter for members of AACC International, Inc. and \$400 (for the first five pages) and \$150 each page, or portion thereof, thereafter for nonmembers. All fees are subject to change without notice. Reprints are available to authors at a nominal cost; an order form will be provided and must be returned with the proof. A list of recently accepted manuscripts appears on AACCnet (www.aaccnet.org). For further information on recently accepted manuscripts, contact the Editorial Office.

Direct inquiries on editorial policy and review process to: Dr. R. Carl Hosney, Editor-in-Chief, 852 Church Ave Manhattan, KS 66502 U.S.A. (Phone: +1.785.537.5199; Fax: ++1.785.537.5199; E-mail: chosney@scisoc.org). Submit manuscripts directly to "Manuscript Central". Further information is provided in the "Instructions to Authors" on AACCnet (www.aaccnet.org). Direct inquiries to: Editorial Office, AACC International, Inc., 3340 Pilot Knob Rd., St. Paul, MN 55121.

CEREAL CHEMISTRY®

AN INTERNATIONAL JOURNAL SINCE 1924

VOLUME 85, NUMBER 2

March-April 2008

- 97 Effects of Added Minerals on Pasting of Partial Waxy Wheat Flour and Starch and on Noodle Making Properties. *H. S. Gujral, S. J. Park, and B.-K. Baik*
- 102 Corn Gluten Meal as a Thermoplastic Resin: Effect of Plasticizers and Water Content. *J. W. Lawton, G. W. Selling, and J. L. Willett*
- 109 Staling Effects When Adding Low Amounts of Normal and Heat-Treated Barley Flour to a Wheat Bread. *J. K. Purhagen, M. E. Sjö, and A.-C. Eliasson*
- 115 Effect of Barley Flour on Development of Rice-Based Extruded Snacks. *M. Gupta, A. Singh Bawa, and A. Dutt Semwal*
- 123 Relationships of High Molecular Weight Glutenin Subunit Composition and Molecular Weight Distribution of Wheat Flour Protein with Water Absorption and Color Characteristics of Noodle Dough. *J.-B. Ohm, A. S. Ross, C. J. Peterson, and Y.-L. Ong*
- 132 Effect of DDGS, Moisture Content, and Screw Speed on Physical Properties of Extrudates in Single-Screw Extrusion. *N. Chevanan, K. A. Rosentrater, and K. Muthukumarappan*
- 140 Flavor Volatiles of Rice During Cooking Analyzed by Modified Headspace SPME/GC-MS. *Z. Zeng, H. Zhang, J. Y. Chen, T. Zhang, and R. Matsunaga*
- 146 Development of Functional Spaghetti Enriched with Long Chain Omega-3 Fatty Acids. *G. Iafelice, M. F. Caboni, R. Cubadda, T. Di Criscio, M. C. Trivisonno, and E. Marconi*
- 152 Total Phenolics and Antioxidant Potential in Plasma and Urine of Humans After Consumption of Wheat Bran. *R. K. Price, R. W. Welch, A. M. Lee-Manion, I. Bradbury, and J. J. Strain*
- 158 Compaction of Corn Distillers Dried Grains. *Y. Xu, M. A. Hanna, and R. Weber*
- 165 Measurement of Wheat Hardness by Seed Scarifier and Barley Pearler and Comparison with Single-Kernel Characterization System. *K. Liu*
- 174 Extraction and Physicochemical Characterization of Rye β -Glucan and Effects of Barium on Polysaccharide Molecular Weight. *Y. Brummer, S. Jones, S. M. Tosh, and P. J. Wood*
- 182 Fragmentation of Waxy Rice Starch Granules by Enzymatic Hydrolysis. *J.-Y. Kim, D.-J. Park, and S.-T. Lim*
- 188 Green Fluorescent Protein as a Tissue Marker in Transgenic Maize Seed. *C. T. Shepherd, N. Vignaux, J. M. Peterson, L. A. Johnson, and M. P. Scott*

Authorization to photocopy copyrighted material for internal or personal use, or the internal or personal use of specific clients, is granted by AACC International, Inc., for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$7.00 per copy of an article is paid directly to CCC, 222 Rosewood Dr., Danvers, MA 01923. Phone: 978-750-8400. 0009-0352/08 \$7.00 + 00

2008 Print Subscriptions: Number of issues per year: 6 (bimonthly). Cost: \$567 U.S.A.; \$606 Elsewhere; Canadian subscribers add 6% GST/HST (Canadian GST #R131584808). Shipping included in yearly subscription rate. No agency discount available.

CURRENT print + ONLINE subscribers: Renewal invoices for 2008 will be mailed with online pricing.

NEW print + ONLINE subscribers: Online access can be added to your *Cereal Chemistry* print subscription for an additional fee. Fill out form at <http://www.aaccnet.org/cerealchemistry/instform.pdf> then return to dwest@scisoc.org. For terms of use for *Cereal Chemistry* journal online, go to <http://www.aaccnet.org/cerealchemistry/Terms.pdf>

Single Issue Purchases: Current volume year cost: \$108/issue U.S.A.; \$118/issue elsewhere. Other years: \$114/issue U.S.A.; \$124/issue elsewhere.

Single Article Purchases: PDF copies of articles published from 1997 to present may be purchased online at <http://cerealchemistry.aaccnet.org/> to locate the article and then click the "Buy Article" link.

Payment Information: Prepayment is required. AACC International accepts check payments. Checks must be drawn on U.S. Federal Reserve System Bank. AACC International accepts credit card payments (MasterCard, American Express, and VISA).

Change of Subscription Address: Provide your current mailing label to AACC International U.S.A. Headquarters with forwarding address information 6 weeks before the change.

Business Offices: AACC International Headquarters, 3340 Pilot Knob Road, St. Paul, MN 55121 U.S.A.; Phone +1.651.454.7250, 1.800.328.7560; Fax +1.651.454.0766; E-mail: aacc@scisoc.org

AACC International (Europe Branch Office), Stanislas de Rijcklaan 60/22, BE-3001, Heverlee, BELGIUM; Phone +32.16.204035; Fax +32.16.202535; E-mail: aacc@scisoceurope.org

CEREAL CHEMISTRY® (ISSN: 0009-0352) is published bimonthly by AACC International, Inc., 3340 Pilot Knob Road, St. Paul, MN 55121. Phone: +1.651.454.7250. Periodicals postage paid at St. Paul, MN, and additional mailing offices. **Postmaster: Send address changes to Cereal Chemistry, 3340 Pilot Knob Road, St. Paul, MN 55121.**

- 196** Dry-Milling and Fractionation of Transgenic Maize Seed Tissues with Green Fluorescent Protein as a Tissue Marker. *C. T. Shepherd, N. Vignaux, J. M. Peterson, M. P. Scott, and L. A. Johnson*
- 202** Improved Isolation of Zein from Corn Gluten Meal Using Acetic Acid and Isolate Characterization as Solvent. *G. W. Selling and K. Kruger Woods*
- 207** Laboratory Wet Milling of Corn: Milling Fraction Correlations and Variations Among Crop Years. *A. Arora, Y. Niu, M. E. Tumbleson, and K. D. Rausch*
- 211** Glycemic Response to Oat Bran Muffins Treated to Vary Molecular Weight of β -Glucan. *S. M. Tosh, Y. Brummer, T. M. S. Wolever, and P. J. Wood*
- 218** Enhanced Lipid Stability in Whole Wheat Flour by Lipase Inactivation and Antioxidant Retention. *D. J. Rose, L. V. Ogden, M. L. Dunn, and O. A. Pike*
- 224** Influence of Microwave Heating on Some Physicochemical Properties of Wheat Grain Harvested in Three Consecutive Years. *S. Grundas, J. R. Warchalewski, R. Dolińska, and J. Gralik*
- 230** Empirical Modeling of Mean Residence Time in a Co-Rotating Twin-Screw Extruder with Rice Flour. *H. Lei, R. G. Fulcher, R. Ruan, and B. van Lengerich*
- 238** Comparison of Different Methods for Phenotyping Preharvest Sprouting in White-Grained Wheat. *R. Singh, M. Matus-Cádiz, M. Båga, P. Hucl, and R. N. Chibbar*
- 243** Tocopherols, Tocotrienols, and γ -Oryzanol Contents in *Japonica* and *Indica* Subspecies of Rice (*Oryza sativa* L.) Cultivated in Brazil. *R. J. B. Heinemann, Z. Xu, J. S. Godber, and U. M. Lanfer-Marquez*
- 248** Rapid High-Performance Liquid Chromatography Determination of Tocopherols and Tocotrienols in Cereals. *M. Møller Nielsen and Åse Hansen*
- 252** Relationships Between Some Structures and Functionalities of Starches from Wheat Cultivars Grown in East China. *H.-X. Hou, H.-Z. Dong, H. Zhang, and X.-Q. Song*
- 257** Distribution of Protein Bodies and Phytate-Rich Inclusions in Grain Tissues of Low and High Iron Rice Genotypes. *C. Prom-u-thai, L. Huang, B. Rerkasem, G. Thomson, J. Kuo, M. Saunders, and B. Dell*
- 266** Effect of Variation in Amylose Content and Puroindoline Composition on Bread Quality in a Hard Spring Wheat Population. *J. M. Martin, J. D. Sherman, S. P. Lanning, L. E. Talbert, and M. J. Giroux*
