Effect of potential atmospheric warming on temperature-based indices describing Australian winegrape growing conditions

WILEY-
BLACKWELL

Australian Journal of Grape and Wine Research

Volume 15, Number 2, 2009

Contents

- Effect of potential atmospheric warming on temperature-based indices describing Australian
winegrape growing conditions _____ 97
A. Hall and G.V. Jones
- Variation of linalool and geraniol content within two pairs of aromatic and non-aromatic
grapevine clones _____ 120
E. Duchêne, J.L. Legras, F. Karst, D. Merdinoglu, P. Claudel, N. Jaegli and F. Pelsy
- Nitrogen concentrations in soil solution and surface run-off on irrigated vineyards in
Australia _____ 131
K. Barlow, W. Bond, B. Holzapfel, J. Smith and R. Hutton
- Parentage of Merlot and related winegrape cultivars of southwestern France: discovery of
the missing link _____ 144
*J.-M. Boursiquot, T. Lacombe, V. Laucou, S. Julliard, F.-X. Perrin, N. Lanier,
D. Legrand, C. Meredith and P. This*
- Variation in Shiraz berry size originates before fruitset but harvest is a point of
resynchronisation for berry development after flowering _____ 156
J.D. Gray and B.G. Coombe
- The influence of seed weight on the development and growth of berries and live green
ovaries in *Vitis vinifera* L. cvs. Pinot Noir and Cabernet Sauvignon _____ 166
A.P. Friend, M.C.T. Trought and G.L. Creasy
- Comparisons between Australian consumers' and industry experts' perceptions of ideal wine
and cheese combinations _____ 175
S.E.P. Bastian, C.M. Payne, B. Perrenoud, V.L. Joscelyne and T.E. Johnson
- Effects of pre-bloom leaf removal on growth of berry tissues and must composition in two
red *Vitis vinifera* L. cultivars _____ 185
S. Poni, F. Bernizzoni, S. Civardi and N. Libelli
- Errata _____ 194
