

AUSTRALIAN JOURNAL OF Grape and Wine Research

PUBLICATION OF THE AUSTRALIAN SOCIETY OF VITICULTURE AND OENOLOGY

Changes in susceptibility of grape berries to splitting are related to impaired osmotic water uptake associated with losses in cell vitality

Australian Journal of Grape and Wine Research

Volume 16, Number 3, 2010

Contents

- Flavonoids and C₁₃-norisoprenoids in *Vitis vinifera* L. cv. Shiraz: relationships between grape and wine composition, wine colour and wine sensory properties _____ 369
R. Ristic, K. Bindon, L.I. Francis, M.J. Herderich and P.G. Iland
- Spatial analysis of climate in winegrape-growing regions in Australia _____ 389
A. Hall and G.V. Jones
- Remote monitoring of leaf turgor pressure of grapevines subjected to different irrigation treatments using the leaf patch clamp pressure probe _____ 405
S. Rüger, Y. Netzer, M. Westhoff, D. Zimmermann, R. Reuss, S. Ovadiya, P. Gessner, G. Zimmermann, A. Schwartz and U. Zimmermann
- Reduced irrigation and rootstock effects on vegetative growth, yield and its components, and leaf physiological responses of Shiraz _____ 413
R.M. Stevens, J.M. Pech, M.R. Gibberd, R.R. Walker and P.R. Nicholas
- Vine performance and grape composition as affected by early-season source limitation induced with anti-transpirants in two red *Vitis vinifera* L. cultivars _____ 426
A. Palliotti, S. Poni, J.G. Berrios and F. Bernizzoni
- Interaction of rootstock and applied water amounts at various fractions of estimated evapotranspiration (ET_c) on productivity of Cabernet Sauvignon _____ 434
L.E. Williams
- Spring temperatures alter reproductive development in grapevines _____ 445
M. Keller, J.M. Tarara and L.J. Mills
- Diagnosis of grapevine esca disease by immunological detection of *Phaeomoniella chlamydospora* _____ 455
P. Fleurat-Lessard, E. Luini, J.-M. Berjeaud and G. Roblin
- Mass-spectrometry evidence confirming the presence of pelargonidin-3-O-glucoside in the berry skins of Cabernet Sauvignon and Pinot Noir (*Vitis vinifera* L.) _____ 464
F. He, J.-J. He, Q.-H. Pan and C.-Q. Duan
