

AUSTRALIAN JOURNAL OF  
Grape and Wine Research

PUBLICATION OF THE AUSTRALIAN SOCIETY OF VITICULTURE AND OENOLOGY

Substantial water uptake into detached grape berries occurs through the stem surface

## Contents

### Review Article

- Review: Use of recycled wastewater for irrigating grapevines \_\_\_\_\_ 1  
*S. Laurensen, N.S. Bolan, E. Smith and M. McCarthy*

### Original Articles

- Profiling and accurate quantification of *trans*-resveratrol, *trans*-piceid, *trans*-pterostilbene and 11  
viniferins induced by *Plasmopara viticola* in partially resistant grapevine leaves \_\_\_\_\_ 11
