Original articles

- 1079** Wear trial assessment of layer structure effects on vapor permeability and condensation in a cold weather clothing ensemble
S Yoo and E Kim
- 1092** Application of the laser-induced breakdown spectroscopy method in the analysis of carbon and titanium in textile structures
M Prusova and J Wiener
- 1099** Automatic machine embroidery image color analysis system, part II: Application of the genetic algorithm in search of a repetitive pattern image
C-FJ Kuo, B-L Jian, C-P Tung and H-C Wu
- 1107** Betelnut fibres as an alternative to glass fibres to reinforce thermoset composites: A comparative study
U Nirmal, J Hashim, STW Lau, Yuhazri MY and BF Yousif
- 1121** Biological effects of melt spinning fabrics composed of 1% bioceramic material
T-K Leung, J-M Lin, H-S Chien and T-C Day
- 1131** Biomimetics of branching structure in warp knitted fabrics to improve water transport properties for comfort
Q Chen, JT Fan and MK Sarkar
- 1143** Correction of the evaporative resistance of clothing by the temperature of skin fabric on a sweating and walking thermal manikin
S Ueno and S-i Sawada
- 1157** Degradation of military body armor due to wear: Laboratory testing
R Pinto, D Carr, M Helliker, L Girvan and N Gridley
- 1164** Development and analysis of novel electroluminescent yarns and fabrics for localized automotive interior illumination
T Dias and R Monaragala
- 1177** Evaluation of the possibility of using surface free energy study to design protective fabrics
M Cieslak, D Puchowicz and H Schmidt
