**More about fibre friction
and its measurements**

ISSN 0040-5167

ISBN-13: 978-0-415-57188-3

ISBN-10: 0-415-57188-3

CONTENTS

| | |
|--|-----|
| 1. Introduction | 141 |
| 2. Fundamental studies of friction | 143 |
| 2.1. Introduction | 143 |
| 2.2. Principles of friction | 145 |
| 2.2.1. <i>Mechanism of friction</i> | 146 |
| 2.3. Mechanism of stick-slip | 146 |
| 2.4. Friction in cylindrical surface | 148 |
| 2.5. Friction in textiles | 149 |
| 2.5.1. <i>Friction in drafting field</i> | 149 |
| 2.5.2. <i>Factors affecting the friction field</i> | 151 |
| 3. Friction force in friction field | 152 |
| 3.1. Friction of textile fibres | 153 |
| 3.1.1. <i>Friction of natural fibres</i> | 154 |
| 3.1.1.1. <i>The friction of wool and fur fibres</i> | 154 |
| 3.1.1.2. <i>Cotton fibres</i> | 154 |
| 3.1.1.3. <i>Other natural fibres</i> | 155 |
| 3.1.2. <i>Friction of synthetic fibres</i> | 155 |
| 4. Theories on friction of fibrous materials | 155 |
| 4.1. Adhesion Shearing Theory | 156 |
| 4.2. Friction studies in textile fibres | 159 |
| 4.2.1. <i>Pressure area relation in structural model of friction</i> | 159 |
| 4.2.2. <i>Capstan method in structural model of friction</i> | 164 |
| 5. Measuring fibre friction | 168 |
| 5.1. Measurement methods | 168 |
| 5.1.1. <i>Requirements for friction measurements</i> | 169 |
| 5.1.2. <i>Measurements of fibre friction</i> | 171 |
| 5.1.3. <i>Measurement of yarn friction</i> | 176 |
| 5.2. Factors affecting friction of fibrous materials | 177 |
| 6. Compression of fibrous materials | 182 |
| 6.1. Introduction | 182 |
| 6.2. Theories on compression of fibrous materials | 183 |
| 6.3. Experimental methods for compression of fibrous masses | 187 |
| 7. Conclusion | 189 |
