Textile
Technology

Top quality PET for food packaging. Approved and preferred by leading brand owners – is the recognition of our quality. Unsurpassed reliability at the lowest energy consumption – is the trade mark of our design. Time proven and state-of-the-art Buhler SSP technology – is the key to your success. More than 150 industrial plants for virgin and recycled PET demonstrate: We at Buhler understand how to treat PET on its first pass and every following cycle in use.

Bühler AG, Thermal Processes, CH-9240 Uzwil, Switzerland, T +41 71 955 34 66, F +41 71 955 34 40

Chemical Fibers International

Fiber Polymers, Fibers, Texturing and Spunbonds

3 September 2009
Volume 59

Leader

- 121 **Dornbirm 2009: New fibers for technical applications** H.-J. Koslowski

Industry News

- 125 **Global fiber production**
128 **Market trends for synthetic industrial yarns**
129 **Lower German fiber production**
130 **Global elastane yarn production -10 %**
132 **Trevira: takeover by ex-Hoechst management**
133 **Fiber management**
134 **Global market trends for nonwovens**
135 **Truetzschler: expansion of nonwovens machinery**
136 **Market trends for draw-texturing machinery**
137-140 **International News**
142/143 **New patents on fibers and fiber technology**

Raw Materials

- 144 **Cost-efficient PTA/PET technology**
145 **New PA and PET projects (Uhde Inventa-Fischer)**
145 **PPA for monofilaments**
146 **New PEI polymer for fibers**
148 **New PP resins for nonwovens (ExxonMobil)**
149 **Master-Conti process for cellulose spinning dopes (List)**
149 **5th China International Recycled Polyester Forum** U. Thiele

Fibers

- 150 **Polyolefin yarn and fiber markets**
C. Purvis

- 151 **Implanting new characteristics into all fiber types for flock** A. Rudolph
154 **Recent developments in PLA fibers**
S. Viju, G. Thilagavathi
156 **Chitosan fibers with enhanced antimicrobial properties** Yimin Qin, Changjun Zhu, Jie Chen, Mohsen MirafTAB
158 **System for automated measurement and analysis of micro- and nanofibers (FEI)**
159 **Dornbirm 2009: abstracts of lectures on new developments in fibers**

Fiber Production

- 163 **Low inlet pressures and high viscosities – gear pumps for tough industrial applications**
B. Schulte-Ellerbrock
165 **Integrated plant engineering: Comprehensive engineering** I. Rahn
166 **Filament yarn markets – current titer segmentation and application bifurcation**
S.P. Singh, M. Korobczuk
169 **Dissolution of cellulose in LiOH complex aqueous solution and preparation of regenerated cellulose fibers**
Shuai Zhang, Fa-Xue Li, Jian-Yong Yu
171 **Mercury-free melt pressure transducers with high-precision measurement (Gneuss)**
172 **Effects of heat-setting on properties of biodegradable PBST fibers** Yan-Li Ma et al.
175 **DIO spinning plant for filament yarns**
M. Reichwein

Texturing

- 176 **Properties of polyester/viscose blended air-jet textured yarns**
M.Y. Gudiyawar, C.D. Kane, R. Redekar
177 **Lenzing Instruments: cooperation with Retech**
122 **Calendar / Conference programs**
180 **Imprint/Company Index/Advertisers Index**
