CONTENTS

Papers

- 349** Physico-chemical and mechanical characterization of alkali-treated *Agave americana* L. fiber
A. El Oudiani, R. Ben Sghaier, Y. Chaaboumi, S. Msahli and F. Sakli
- 356** Modeling and optimizing the frictional behavior of woven fabrics in climatic conditions using response surface methodology
A. Arshi, A.A.A. Jeddi and M.B. Moghadam
- 370** Application of sericin to modify textile supports
I. Belhaj Khalifa, N. Ladhari and M. Touay
- 378** Influence of Dorlastan® draft and yarn count on the elastic recovery of the Dorlastan® core spun yarns following cyclic test
H. Helali, A. Babay Dhouib, S. Msahli and M. Cheikhrouhou
- 385** Durable hydrophobic cotton surfaces prepared using silica nanoparticles and multifunctional silanes
B. Roe, R. Kotek and X. Zhang
- 394** UV absorption property of bamboo
T. Afrin, T. Tsuzuki and X. Wang
- 400** Structural design engineering of woven fabric by soft computing: mathematical manoeuvrability to control crimp in the fabric
R. Mishra, B.K. Behera and J. Militky
- 405** Making sense of consumers' wool apparel preferences
J.N. Sneddon, J.A. Lee and G.N. Soutar
- 416** Abrasion evaluation of spliced and parent yarns with a new simulator abrader tester
J. Boubaker, M. Ben Hassen and F. Sakli
- 422** Prediction of optimum process parameters to achieve eco-friendly desizing of organic cotton fabrics with indigenously produced alpha-amylase and their enzyme kinetics
C. Vigneswaran, N. Anbumani, M. Ananthasubramanian and R. Rajendran
- 434** New chitosan microspheres supported [bis(2-methylallyl)(1,5-cyclooctadiene)ruthenium(II)] as efficient catalysts for colour degradation in the presence of hydrogen peroxide
M. Jabli, R. Touati, Y. Kacem and B.B. Hassine
- 451** Effect of elastane draft on the rheological modelling of elastane core spun yarn
H. Helali, A.D. Babay and S. Msahli
- 458** Extraction and application of natural silk protein sericin from *Bombyx mori* as antimicrobial finish for cotton fabrics
R. Rajendran, C. Balakumar, R. Sivakumar, T. Amruta and N. Devaki
