IAF and ISO step up action to improve accredited certification

Randy A. Dougherty, Chair of the International Accreditation Forum's Technical Committee, reports on the IAF-ISO Joint Action Plan to improve accredited certification to ISO management system standards.

SPECIAL REPORT

7

ISO 26000 – Social responsibility
Executive briefing on ISO 26000

The future International Standard ISO 26000, Guidance on social responsibility, will provide harmonized, globally relevant guidance for private and public sector organizations of all types based on international consensus among expert representatives of the main stakeholder groups and so encourage the implementation of best practice in social responsibility worldwide.

SMEs, ISO 26000 and social responsibility

The International Institute for Sustainable Development (IISD) has carried out a global assessment of how relevant SMEs perceive SR and ISO 26000 to be.

Airbus contributes to greener skies with ISO 14001

Airbus is the first company in the aerospace manufacturing sector to achieve ISO 14001 certification covering all of its European manufacturing sites and product-related activities through a full life cycle approach. It has integrated the EMS standard with its quality management and other ISO-based systems to efficiently manage and control its environmental impacts.
