## Cover

Solar powered floating schools in Bangladesh – local enterprise Shidhulai Swanirvar Sangstha has a fleet of 88 flat-bottomed boats fitted with photo-voltaic arrays and deployed in the Chalanbeel region to bring educational services to the local population. The project was one of the winners in this year's Ashden Awards – see page 10 for the full story.

This issue of *Energy World* develops the theme with a second feature on how the Clean Development Mechanism is helping renewable energy projects in the developing world (page 14), and an article on the efforts in this area of the Asian Development Bank (page 18).
