

JOM

**TMS2013:
Where Materials
Science Meets
Industrial
Application**

An official publication of The Minerals, Metals & Materials Society

DECEMBER 2012

jom.tms.org

HIGH-TEMPERATURE MATERIALS

- Light Water Reactor Fuels
- Gas-Alloy Interactions at Elevated Temperatures
- Corrosion at High Temperatures

TMS

 Springer

LIGHT WATER REACTOR FUELS

- 1389:** Materials Issues Related to the Use of Light Water Reactor Fuels: Dennis D. Keiser, Jr.
- 1390:** Recent Results of Microstructural Characterization of Irradiated Light Water Reactor Fuels using Scanning and Transmission Electron Microscopy: T. Wiss, H. Thiele, A. Janssen, D. Papaioannou, V.V. Rondinella, and R.J.M. Konings
- 1396:** Transient Testing of Nuclear Fuels and Materials in the United States: Daniel M. Wachs
- 1403:** Hydride Formation in Zirconium Alloys: Arthur T. Motta and Long-Qing Chen
- 1409:** Effect of Travel Speed and Beam Focus on Porosity in Alloy 690 Laser Welds: Julie D. Tucker, Terrance K. Nolan, Anthony J. Martin, and George A. Young
- 1418:** Assessment of Titanium Aluminide Alloys for High-Temperature Nuclear Structural Applications: Hanliang Zhu, Tao Wei, David Carr, Robert Harrison, Lyndon Edwards, Wolfgang Hoffelner, Dongyi Seo, and Kouichi Maruyama

GAS-ALLOY INTERACTIONS AT ELEVATED TEMPERATURES

- 1425:** Gas-Alloy Interactions at Elevated Temperatures: Raymundo Arroyave and Michael Gao
- 1426:** Investigation of Complex Iron Surface Catalytic Chemistry Using the ReaxFF Reactive Force Field Method: Chenyu Zou and Adri van Duin
- 1438:** CALPHAD Modeling of Metal-Hydrogen Systems: A Review: J.-M. Joubert
- 1448:** Hydrogen Effervescence from Aluminum Alloy Melts: Aleksandar M. Mitrašinović and Ryan D'Souza

CORROSION AT HIGH TEMPERATURES

- 1453:** Corrosion at High Temperatures: Vilupanur A. Ravi
- 1454:** Mechanistic-Based Lifetime Predictions for High-Temperature Alloys and Coatings: B.A. Pint, S. Dryepont, A. Rouaix-Vande Put, and Y. Zhang
- 1461:** Metal Dusting: Catastrophic Corrosion by Carbon: David J. Young and Jianqiang Zhang
- 1470:** High-Temperature Dual-Atmosphere Corrosion of Solid-Oxide Fuel Cell Interconnects: Paul Gannon and Roberta Amendola

- 1477:** Oxidation Characteristics of Magnesium Alloys: Frank Czerwinski

FEATURES

- 1373:** Opportunities and Barriers to Resource Recovery and Recycling from Auto Shredder Residue – A CR³ Communication: N. Nayak, D. Apelian, B. Mishra, and B. Blanpain
- 1375:** Materials Science Thought Leaders Examine Global R&D Trends: Lynne Robinson
- 1378:** TMS 2013 Convenes the Continuum of Materials Science and Engineering: Lynne Robinson
