

Aluminium structures exposed to fire conditions - an overview

J. Maljaars, L. Twilt, J.H.H. Fellingner, H.H. Snijder,
F. Soetens

Safety philosophy for existing structures and partial factors for traffic loads on bridges

R.D.J.M. Steenbergen, A.C.W.M. Vrouwenvelder

The influence of materials characteristics and workmanship on rain penetration in historic fired clay brick masonry

C.J.W.P. Groot, J.T.M. Gunneweg

Shear stresses around circular cylindrical openings

P.C.J. Hoogenboom, C. van Weelden, C.B.M. Blom
