

**Wind load fatigue of movable bridges**

J. Maljaars, R.D.J.M Steenbergen

**Vibrations of machine foundations**

H. van Koten, P.C.J. Hoogenboom

**Safety factors for existing concrete bridges**

R.D.J.M. Steenbergen, A. de Boer,  
C. van der Veen

# Contents HERON 57 (2012) no. 1

<b>Fatigue of bridges with a horizontal rotation axle under random wind load</b>	<b>1</b>
J. Maljaars, R.D.J.M Steenbergen	
<b>Vibrations of machine foundations and surrounding soil</b>	<b>29</b>
H. van Koten, P.C.J. Hoogenboom	
<b>Calibration of partial factors in the safety assessment of existing concrete slab bridges for shear failure</b>	<b>55</b>
R.D.J.M. Steenbergen, A. de Boer, C. van der Veen	
<b>Heron's fountain 16:</b>	<b>69</b>
<b>The sectio aurea of structural engineers</b>	
P.C.J. Hoogenboom
