COVER STORY

**42 THE STEAMPUNK CONTRAPTORS**

Do-it-yourself enthusiasts are drawing on the aesthetics of the 19th-century Victorian era to create fantastic brass-adorned, steam-driven machines. All hail the steampunk subculture. *By Erico Guizzo*

**22 A LESS WELL-OILED WAR MACHINE**

One of the world's most profligate users of energy, the U.S. military, is turning to renewable sources on a grand scale. *By Sandra Upson*

**28 FRESH PHISH**

A flaw in the Internet's infrastructure makes it easy for scammers to lure people to fake Web sites. *By David Schneider*

**34 BOMB SQUAD DIARY**

Bomb disposal has gone high-tech, as our reporter saw firsthand when his convoy encountered an IED north of Tikrit, in Iraq. *By Glenn Zorpette*

UPDATE

**9 OPEN-SOURCE VOTING**  
Can open-source software save electronic voting? *By Mark Anderson*

**10 VIRTUAL COLONOSCOPY**

**12 CAR TALK**

**13 KEEPING MEMS MOVING**

**14 HOME FUEL CELLS TO SELL IN JAPAN**

OPINION

**7 SPECTRAL LINES**  
Is the United States ready for digital television? The transition may not be so smooth. *By Tekla S. Perry*

**8 FORUM**  
Futurist Ray Kurzweil gets the last word on the singularity.

**15 TECHNICALLY SPEAKING**  
New words are needed to reprocess old electronics. *By Paul McFedries*

DEPARTMENTS

**4 BACK STORY**  
On the road to Tikrit.

**6 CONTRIBUTORS**

**16 HANDS ON**  
TechShop, a high-tech hands-on workshop, is expanding—perhaps to a city near you. *By David Schneider*

**CAREERS**  
**18** Sam Altman is only 23 and on leave from Stanford, but his software may already be on your cellphone. *By Susan Karlin*

**19** Humor can hurt your career—or help it. *By Carl Selinger*

**BOOKS**  
**20** A new book rescues the lost history of electrical engineering. *By Mark Anderson*

**20** Does nuclear disarmament still matter? *By William Sweet*

**60 THE DATA**  
Little text messages are a very big business. *By Steven Cherry*
