

features

Petrochemicals 1 Efficient olefin operations with Elinor Price	24
Petrochemicals 2 Jeff Crook provides a guide to Qatar's Pearl GTL project	29
Polymer processing 1 Microcapillary films with Bart Hallmark, Christian Hornung and Malcolm Mackley	32
Polymer processing 2 Tom McLeish describes the academic ideal that is the Microscale Polymer Processing Project 2	36
Product engineering Daniel Staresinic explains PLM software	40
Sustainable chemistry Novel bio-diesel production with Roger Lawrence	42
Whynotchemeng Joyce Yip reviews the primary reaction to IChemE's new science resources	46
IChemE technical roadmap Ian Shott looks towards the Global Forum launch	48

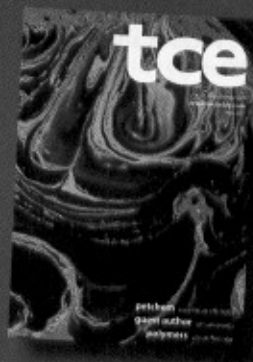

regulars

Catalyst IChemE's incoming president Ramesh Mashelkar outlines his hopes for the future	2	Guest author Momodou Ceesay on Gambian biofuel opportunities	22
Analysis IPCC reaction; Lurgi into Air Liquide; Arcoxia's FDA failure; Oil giants buy into tallow	3	Day in the life Jamie Ginn talks to Adam Duckett about biofuels and her year as Miss Delaware	45
Australia Solar collaboration dawns for UNSW; Uranium deal becomes more hostile; Carbon cutting discussed	7	Member networks Malaysia branch AGM; Royal Society hosts biofuel event; IChemE's Salter's six; Trevor Kletz discusses the recent Flixborough symposium	49
Asia Singapore coal fuels Tata growth; Danone's JV issues in China; Alinta could come to Asia	8	People Dow fires two executives; UNSW DSc for Wainwright; Latif's inaugural lecture	52
UK IPPC improves industrial performance; Further Buncefield recommendations; Sewage escape in Scotland; BE to fight bank over Eggborough	10	Campus Clare Sanders guides us through the results of IChemE's graduate survey snapshot	53
Americas Security ramped up at US chemical sites; Ethanol handshake for Latin partners; Cemex spies Rinker	12	University update EPSRC funds Imperial solar research; Uni shooting takes the life of chemenger; Swansea weds medicine with engineering	54
Contracts Shelling out for IGCC technology in Hatfield; BP chooses Jacobs for Whiting; Taking advantage of sunny Spain	14	Reactions Readers' letters	56
Innovations Hopes of an insulin harvest; Spheres come second place to cylinders; Fantastic plastic conduct; Biofuel cell breakthrough	15	Diary of events	58
Process news Nanogenerator offers mechanical route to energy; Catalyst selects single enantiomer; Algae join emission war; Sasol searches for better catalysts	16	In the journals Matt Stalker offers an insight into IChemE's latest journal content	60
Interview Ronald Oxburgh talks to Adam Duckett about climate change and the way ahead	18	Appointments 14 pages of the latest vacancies	62
Legalwatch REACH compliance with Helen Loose	20	Residue Human engineering; Bitter coffee reaction; Go for the burn	76

in the June issue

wastewater treatment
food & drink

cover story

Cover: olefins and GTL – p24

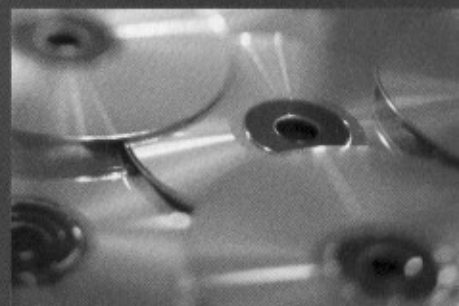

guest author

Nuts about biofuels – p22

Innovative plastic solutions – p32

Software support – p40
