

cover story

Engineering for a better world – p26

guest author

Whole system engineering: money matters – p24

Intensification: microreactors – tiny steps forward – p58

Renewables: biofuel concerns – p42

features

Sustainability 1	26
Richard Darton discusses measurement, development and change	
Sustainability 2	30
Green possibilities for business with Colin Chambers	
Sustainability 3	32
Boosting butadiene capacity with Bernd Heida	
Sustainability 4	36
Lu Feng talks Chinese emissions	
Sustainability 5	38
Gordon Weiss and Linda Funnell-Milnar investigate the Global Reporting Initiative	
Renewables 1	40
Biofuel considerations with Keith Stewart and Phil Webster	
Renewables 2	42
Wendy Laursen reports on the progress of the palm oil industry	
Renewables 3	46
Biomass and refining with Martha Simpson-Holley, Adrian Higson, and Geraint Evans	
Renewables 4	50
Sean Milmo peers into the biofuel future	
Green chemistry 1	52
Roundtable round-up with Berkeley Cue and Julie Manley	
Green chemistry 2	56
Karen Peabody O'Brien makes the case for business	
Process intensification	58
Sean Milmo takes a look at the microreactor situation	
Plant efficiency	60
Improving fuel efficiency with Barry Singh	
Awards profiles	62

regulars

Catalyst	2	Legalwatch	22
Malcolm Wilkinson views the road ahead for sustainability and chemengers		Jon Close directs us through the implications of the modified 1996 Construction Act	
Analysis	4	Guest author	24
Chinese safety standards; Toshiba uranium mine; Pharma cuts; New bubble theory		Whole-system engineering with Imran Sheikh and Amory Lovins	
Australia	9	Day in the life	61
Parliament sees carbon trading proposal; ITER involvement; precarious pulp mill		David Brown tells Rob Crossley about his journey from Cambridge University to IChemE	
Asia	10	Member networks	64
Japanese battery warning; Kazakh pipe to China; Indonesian paper cuts		Get Chartered update; Popular subject group seminar; Sustainability SG sets up in Australasia	
UK	12	People	65
New capacity construction; CBI's STEM recommendation; Drigg decision made; Independent monitoring too pricey		Brown and the BBC; Clive Pratt obituary; Water winner	
Americas	14	University update	66
Fluoridated water worries; Brazil looks global; \$33b education pledge		Sydney extracts mining money; Nottingham carbon centre; New Queensland VC	
Contracts	15	Campus	67
Issues at Ignalina; HPPO exported to Thailand; Areva pushes back Olkiluoto		Judy Scully tells Adam Duckett about tempting SMEs back to university	
Innovations	16	Reactions	70
Useful finger juice; Chilling chips; Paper batteries; Switching glue on and off		Diary of events	
Process news	18	72	
Misplaced energy metric; Novel casting grant; Getting rid of chicken litter; Plastic scrubber		Appointments	
Interview	20	74	
Peter Davidson tells Adam Duckett about his hopes for the fuel-crop Jatropa		Residue	
		76	
		Foot in mouth; carbon crazy; animal magic
