Research Articles

- The combined effect of superchilling and modified atmosphere packaging using CO₂ emitter on quality during chilled storage of pre-rigor salmon filets (*Salmo salar*)** 1625
AÅ Hansen, T Mørkøre, K Rudi, Ø Langsrud and T Eie (Norway)
- Optimization of enzymatic extraction of ferulic acid from wheat bran, using response surface methodology, and characterization of the resulting fractions** 1634
H Barberousse (Belgium), A Kamoun, M Chaabouni (Tunisia), J-M Giet, O Roiseux, M Paquot, C Deroanne and C Blecker (Belgium)
- Inhibition of rice bran lipase by azadirachtin from *Azadirachta indica*** 1642
Gangadhara, P Ramesh Kumar and V Prakash (India)
- Effect of dietary fibre and MTGase on the quality of mackerel surimi gels** 1648
C Cardoso, R Mendes, P Vaz-Pires and ML Nunes (Portugal)
- Essential oil, fatty acid and sterol composition of Tunisian coriander fruit different parts** 1659
J Sriti (Tunisia), T Talou (France), WA Wannes (Tunisia), M Cerny (France) and B Marzouk (Tunisia)
- Volatile profile and potential of inactive dry yeast-based winemaking additives to modify the volatile composition of wines** 1665
MÁ Pozo-Bayón, I Andújar-Ortiz and MV Moreno-Arribas (Spain)
- Evaluation of the effect of plant extracts and phenolic compounds on reduction of acrylamide in an asparagine/glucose model system by RP-HPLC-DAD** 1674
F Zhu, Y-Z Cai (Hong Kong), J Ke (Singapore) and H Corke (Hong Kong)
- Nutrient solution concentration and growing season affect yield and quality of *Lactuca sativa* L. var. *acephala* in floating raft culture** 1682
C Fallovo (Italy), Y Roupheal (Lebanon), E Rea, A Battistelli and G Colla (Italy)
- Low-temperature conditioning combined with methyl jasmonate treatment reduces chilling injury of peach fruit** 1690
P Jin, K Wang, H Shang, J Tong and Y Zheng (China)
- In vitro* gas production profiles and fermentation end-products in processed barley, maize and milo** 1697
A Azarfar (Iran), K Namgay, WF Pellikaan, S Tamminga and AFB van der Poel (The Netherlands)
- Effects of storage condition and domestic cooking on the quality and nutrient content of African leafy vegetables (*Cassia tora* and *Corchorus tridens*)** 1709
S Prabhu and DM Barrett (USA)
- Antioxidant and melanogenesis-inhibitory activities of collagen peptide from jellyfish (*Rhopilema esculentum*)** 1722
Y Zhuang, L Sun, X Zhao, J Wang, H Hou and B Li (China)

Contents continued

- Alternate wetting and moderate soil drying increases grain yield and reduces cadmium accumulation in rice grains** 1728
J Yang, D Huang, H Duan, G Tan and J Zhang (China)
- Effects of dietary black cumin seed (*Nigella sativa* L.) on performance, egg traits, egg cholesterol content and egg yolk fatty acid composition in laying hens** 1737
S Yalçın, S Yalçın, H Erol, KE Buğdaycı, B Özsoy and S Çakır (Turkey)
-  **Discrimination of climacteric and non-climacteric melon fruit at harvest or at the senescence stage by quality traits** 1743
JM Obando-Ulloa (Spain), M-M Jowkar (Iran), E Moreno (Spain), MK Sourı (Iran), JA Martínez, MC Bueso, AJ Monforte and JP Fernández-Trujillo (Spain)
- Nutrient variation and availability of wheat DDGS, corn DDGS and blend DDGS from bioethanol plants** 1754
WG Nuez Ortín and P Yu (Canada)
- Composition and anti-inflammatory activities of *Zanthoxylum schinifolium* essential oil: suppression of inducible nitric oxide synthase, cyclooxygenase-2, cytokines and cellular adhesion** 1762
J-H Lee, K-M Chang and G-H Kim (Korea)
- Air injection into concentrated maple sap during processing: impact on syrup composition and flavour** 1770
AK van den Berg, TD Perkins, ML Isselhardt, MA Godshall and SW Lloyd (USA)
- Effects of dietary microalgae, other lipid sources, inorganic selenium and iodine on yolk n-3 fatty acid composition, selenium content and quality of eggs in laying hens** 1775
L Rizzi, D Bocchicchio, A Bargellini, P Parazza and M Simioli (Italy)
- Efficacy of trivalent chromium on growth performance, carcass characteristics and tissue chromium in heat-stressed broiler chicks** 1782
L-Y Zha, J-W Zeng, X-W Chu, L-M Mao and H-J Luo (China)
- Proteomic characterisation of subclover seed storage proteins during germination** 1787
I Sahnoun-Abid (Tunisia), G Recorbet, H Zuber, N Sommerer, D Centeno, E Dumas-Gaudot (France) and S Smiti-Aschi (Tunisia)

Short Communication

Screening of mycotoxin multicontamination in medicinal and aromatic herbs sampled in Spain

1802

L Santos, S Marín, V Sanchis and AJ Ramos (Spain)

SCI — the only society connecting science, business & you

Whatever stage you are at in your career SCI can be an invaluable tool. If it is networking with potential employers, learning from fellow peers or taking an active role within your local regional group, SCI will be there to add to and support your further and ongoing development. Become an SCI member. Here are just a few of the great products and services you can get:

- Chemistry & Industry Magazine — Latest news features and reviews, direct to your desktop and to your door twice a month.
- 50% discount on Wiley books, 25% off Blackwell books and 20% off Oxford University press books (some exceptions apply).
- Discounted Conferences — 75% off our exciting conferences.
- Global Networking Opportunities — A chance to meet other like minded professionals working within the chemical industry and academia.
- Technical Interest Groups — Over 20 industry and topic specific groups to discuss, share and discover development within your sector.
- Writing and speaking opportunities — Present at one of our prestigious conferences and write for the SCI's renowned journals.
- 50% discount on SCI peer reviewed journals.
- International and Regional activity — Contribute to your local group and take advantage of free events and the local networking opportunities.
- SCI Awards — Achieve recognition of outstanding contribution to your field within the chemical industry, serving both the individual and innovation.
- Plus much more.
