## Research Articles

- Development of a sensitive and group-specific polyclonal antibody-based enzyme-linked immunosorbent assay (ELISA) for detection of malachite green and leucomalachite green in water and fish samples** 2165  
W Xing, L He, H Yang, C Sun, D Li, X Yang, Y Li and A Deng (China)
- Evaluation of alternative cereal sources in dog diets: effect on nutrient utilisation and hindgut fermentation characteristics** 2174  
KB Kore, AK Pattanaik, A Das and K Sharma (India)
- Preparation and application of a novel environmentally friendly organic seed coating for rice** 2181  
D Zeng and Y Shi (China)
- Physicochemical properties of KDML 105 rice cultivar from different cultivated locations in Thailand** 2186  
S Pitiphunpong and P Suwannaporn (Thailand)
- Stability of a soybean seed-derived vaccine antigen following long-term storage, processing and transport in the absence of a cold chain** 2191  
JL Oakes, KL Bost and KJ Piller (USA)
- Endogenous lysine in ileal digesta in the growing rat determined using different methods** 2200  
A Awati, SM Rutherford (New Zealand), AK Kies (The Netherlands), A Veyry and PJ Moughan (New Zealand)
- Phenolic compounds and fatty acid composition of organic and conventional grown pecan kernels** 2207  
NSA Malik, JL Perez, L Lombardini (USA), R Cornacchia (USA, Italy), L Cisneros-Zevallos and J Braford (USA)
- Effects of 1-methylcyclopropene on oxidative damage, phospholipases and chilling injury in loquat fruit** 2214  
S Cao, Y Zheng, K Wang, H Rui and S Tang (China)
- Antioxidant content of edible sprouts: effects of environmental shocks** 2221  
M-M Oh and CB Rajashekar (USA)
- Effect of high hydrostatic pressure on mortality and allergenicity of *Anisakis simplex* L3 and on muscle properties of infested hake** 2228  
S Vidacek, C de las Heras, MT Solas, AI Rodriguez Mahillo and M Tejada (Spain)
- Comparison of normal and low-lignin hull/high-oil groat oat as energy sources for broiler chicks** 2236  
PA Thacker, GP Widyaratne and BG Rossnagel (Canada)
- Effects of selenium addition on minimally processed leafy vegetables grown in a floating system** 2243  
F Malorgio (Italy), KE Diaz (Argentina), A Ferrante, A Mensuali-Sodi and B Pezzarossa (Italy)

SCI

Journal of the  
Science of Food  
and Agriculture

www.interscience.wiley.com/jsfa

Contents continued

- In vitro effects of phlorotannins from *Ascophyllum nodosum* (brown seaweed) on rumen bacterial populations and fermentation** 2252  
Y Wang, TW Alexander and TA McAllister (Canada)
- Sulfur fertilization and light exposure during storage are critical determinants of the nutritional value of ready-to-eat friariello campano (*Brassica rapa* L. subsp. *sylvestris*)** 2261  
G Barbieri, A Bottino, F Orsini and S De Pascale (Italy)
- Pepper antioxidant composition as affected by organic, low-input and soilless cultivation** 2267  
P Flores, P Hellín, A Lacasa, A López and J Fenoll (Spain)
- Effect of conventional and organic production systems on the yield and quality of field tomato cultivars grown in Tunisia** 2275  
A Riahi, C Hdidier, M Sanaa, N Tarchoun, MB Kheder and I Guezal (Tunisia)
- Elemental content and nutritional study of blood orange juice** 2283  
D Cautela, F Santelli, F Boscaino, B Laratta, L Servillo and D Castaldo (Italy)
- The comparison of biosorption of nutritionally significant minerals in single- and multi-mineral systems by the edible microalga *Spirulina* sp.** 2292  
A Zielińska and K Chojnacka (Poland)
- Effects of citric acid supplementation on rumen fermentation, urinary excretion of purine derivatives and feed digestibility in steers** 2302  
C Wang (PR China), Q Liu (Canada), J Meng (PR China), WZ Yang (PR China, Canada), XM Yang, DC He, KH Dong and YX Huang (PR China)
-  **Identification of repressed gene transcript accumulation in three albino mutants of *Bambusa edulis* Munro by cDNA microarray analysis** 2308  
F-H Wu, N-T Liu, S-J Chou, S-C Shen, BC Chang, C-Y Pan and C-S Lin (Taiwan)
- Effect of seed moisture content on flaxseed (*Linum usitatissimum* L.) milling and milled product characteristics** 2317  
AL Schorno, FA Manthey and CA Hall (USA)
- Surface application of calcium-containing gels to improve quality of late maturing peach cultivars** 2323  
V Fernández, A Díaz, Á Blanco and J Val (Spain)

**Effect of punicic acid naturally occurring in food on lipid peroxidation in healthy young humans**

2331

G-F Yuan, ML Wahlqvist, J-Q Yuan, Q-M Wang and D Li (China)

**Estimation of metabolisable energy content of date pit and its effect on lipid and protein oxidation in broiler chicks**

2336

M Zaghari, R Taherkhani, M Ghasemi and M Shivazad (Iran)

---

## SCI — the only society connecting science, business & you

Whatever stage you are at in your career SCI can be an invaluable tool. If it is networking with potential employers, learning from fellow peers or taking an active role within your local regional group, SCI will be there to add to and support your further and ongoing development. Become an SCI member. Here are just a few of the great products and services you can get:

- Chemistry & Industry Magazine — Latest news features and reviews, direct to your desktop and to your door twice a month.
- 50% discount on Wiley books, 25% off Blackwell books and 20% off Oxford University press books (some exceptions apply).
- Discounted Conferences — 75% off our exciting conferences.
- Global Networking Opportunities — A chance to meet other like minded professionals working within the chemical industry and academia.
- Technical Interest Groups — Over 20 industry and topic specific groups to discuss, share and discover development within your sector.
- Writing and speaking opportunities — Present at one of our prestigious conferences and write for the SCI's renowned journals.
- 50% discount on SCI peer reviewed journals.
- International and Regional activity — Contribute to your local group and take advantage of free events and the local networking opportunities.
- SCI Awards — Achieve recognition of outstanding contribution to your field within the chemical industry, serving both the individual and innovation.
- Plus much more.
