Review

- Chemical and nutritional quality of silage made from raw or cooked lizard fish (*Saurida undosquamis*) and blue crab (*Portunus pelagicus*)** 2519

DTN Mach (Norway) and R Nortvedt (Vietnam)

Research Articles

- Muscle fiber properties and thermal stability of intramuscular connective tissue in porcine *M. semimembranosus*** 2527

L Voutilä, J Perero, M Ruusunen, K Jouppila and E Puolanne (Finland)

- Comparative study of fatty acid composition, vitamin E and carotenoid contents of palm oils from four varieties of oil palm from Côte d'Ivoire** 2535

AA Monde (Côte d'Ivoire), F Michel, M-A Carbonneau (France), G Tiahou (Côte d'Ivoire), M-H Vernet, S Eymard-Duvernay, S Badiou (France), B Adon, E Konan, D Sess (Côte d'Ivoire) and JP Cristol (France)

- Assessing fibre-rich feedstuffs in pig nutrition: comparison of methods and their potential implications** 2541

M Sappok (Germany), WF Pellikaan, MWA Verstegen (the Netherlands) and A Sundrum (Germany)

- Effect of thermal treatment on physicochemical composition and sensory qualities, including 'foxy' methyl anthranilate of interspecific variety Golden Muscat (*Vitis vinifera* × *Vitis labrusca*) fortified wine made in Taiwan** 2551

C-H Chen, M-H Chang, M-K Shih, C-M Jiang and M-C Wu (Taiwan)

- Optimisation of pressurised liquid extraction for the determination of monosaccharides and polyalcohols in woods used in wine aging** 2558

ME Alañón, AI Ruiz-Matute, I Martínez-Castro, MC Díaz-Maroto and MS Pérez-Coello (Spain)

- Iron fortification and parboiled rice quality: appearance, cooking quality and sensory attributes** 2565

C Prom-u-thai, B Rerkasem (Thailand), S Fukai and L Huang (Australia)

- Chemical characterisation of *Nephrops norvegicus* from Portuguese coast** 2572

HM Lourenço, P Anacleto, C Afonso, MF Martins, ML Carvalho, AR Lino and ML Nunes (Portugal)

- Measurement and prediction of the concentration of 1-methylcyclopropene in treatment chambers containing different packaging materials** 2581

LC Rodríguez-Pérez, B Harte, R Auras, G Burgess and RM Beaudry (USA)

- Screening quality and browning susceptibility of five artichoke cultivars for fresh-cut processing** 2588

AB Cabezas-Serrano, ML Amodio, R Cornacchia, R Rinaldi and G Colelli (Italy)

- Production and structural analysis of triacylglycerols containing capric acid and conjugated linoleic acid isomers obtained by enzymatic acidolysis** 2595

S Maurelli, F Blasi, L Cossignani, A Bosi, MS Simonetti and P Damiani (Italy)

Contents continued

- Nutrient composition of tomato products prepared using tomato grown under sodic condition with gypsum and farmyard manure treatment** 2601
V Rani and N Khetarpaul (India)
- Effects of organic fertilisers and irrigation level on physical and chemical quality of industrial tomato fruit (cv. Nautilus)** 2608
R Madrid, EM Barba, A Sánchez and AL García (Spain)
- Event-specific analytical methods for biotech maize MIR 604 and DAS-59122-7** 2616
S-H Lee, B-Y Yi and S-J Kim (Korea)
- Efficacy of new commercial formulations to control downy mildew and dissipation of their active fungicides in wine after good agricultural practices** 2625
RM González-Rodríguez, B Cancho-Grande and J Simal-Gándara (Spain)
- Comparative study on antioxidant properties of carrot juice stabilised by high-intensity pulsed electric fields or heat treatments** 2636
LJ Quitão-Teixeira (Brazil), I Odriozola-Serrano, R Soliva-Fortuny (Spain), A Mota-Ramos (Brazil) and O Martín-Belloso (Spain)
- Use of essential oil from *Mentha arvensis* L. to control storage moulds and insects in stored chickpea** 2643
A Kumar, R Shukla, P Singh, AK Singh and NK Dubey (India)
- Influence of inulin/oligofructose on the acid-induced cold aggregation and gelation of preheated soy proteins** 2650
Y-C Tseng, YL Xiong and F Yang (USA)
- Sodium benzoate, potassium sorbate and sodium nitrite as silage additives** 2659
M Knický and R Spörndly (Sweden)
- Effects of tannin on selection by sheep of forages containing alkaloids, tannins and saponins** 2668
LD Lisonbee, JJ Villalba and FD Provenza (USA)
- Antihypertensive and antioxidant effects of the *Graptopetalum paraguayense* E. Walther extract in spontaneously hypertensive rats** 2678
Y-C Chung, S-J Chen, H-Y Peng and S-T Chou (Taiwan)
- Maternal dietary conjugated linoleic acid is not directly toxic for the developing chick embryo, but causes embryo mortality by altering fatty acid composition of the egg yolk in the chicken** 2687
R Aydin (Turkey) and ME Cook (USA)
