

Mini-review

The fate of mycotoxins during thermal food processing

549

B Kabak (Turkey)

Review

Physiological, hormonal and molecular mechanisms regulating chilling injury in horticultural species. Postharvest technologies applied to reduce its impact

555

L Sevillano, MT Sanchez-Ballesta, F Romojaro and FB Flores (Spain)

Research Articles

Purification of α -amylase from human saliva by superparamagnetic particles

574

J Lin, Y-S Lin, S-T Kuo, C-M Jiang and M-C Wu (Taiwan)

Folate is higher in developmentally younger potato tubers

579

A Goyer and DA Navarre (USA)

Effect of feeding intact brown seaweed *Ascophyllum nodosum* on some digestive parameters and on iodine content in edible tissues in pigs

584

N Dierick, A Ovyn and S De Smet (Belgium)

The impact of fluoridated milks on the availability of trace elements in milk

595

V Zohoori, CJ Seal, PJ Moynihan, IN Steen and A Maguire (UK)

Isolation and characterisation of a novel angiotensin I-converting enzyme-inhibitory peptide derived from *douchi*, a traditional Chinese fermented soybean food

603

J Fan, X Hu (China), S Tan (Singapore), Y Zhang (China), E Tatsumi (Japan) and L Li (China)

Characterisation of the phenolic and flavonoid fractions and antioxidant power of Italian honeys of different botanical origin

609

E Pichichero, L Canuti and A Canini (Italy)

Survival of *E. coli* O157:H7 during manufacture of dry-cured Westphalian ham surface-treated with allyl isothiocyanate or hot mustard powder

617

GH Graumann and RA Holley (Canada)

Effect of salting processes on chemical composition, textural properties and microstructure of duck egg

625

T Kaewmanee, S Benjakul and W Visessanguan (Thailand)

Determination of nutrients and volatile constituents of *Agaricus bisporus* (brown) at different stages

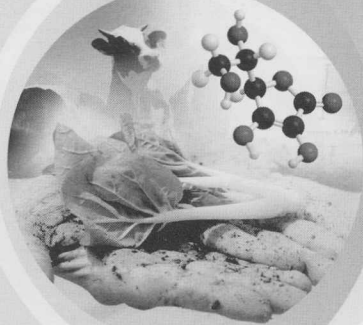

634

N Çağlarırnak (Turkey)

Spatial variation of intestinal skatole production and microbial community in Jinhua and Landrace pigs

639

C-Y Li, C Wu, J-X Liu, Y-Z Wang and J-K Wang (PR China)

Contents continued

- Purification and partial characterization of xyloglucan-hydrolyzing enzymes from watermelon placental tissue** 645
Y Karakurt (Turkey) and DJ Huber (USA)
- Effect of microwave heat/moisture treatment on physicochemical properties of *Canna edulis* Ker starch** 653
J Zhang, Z-W Wang and X-M Shi (China)
- Effect of ultrasound-assisted osmotic dehydration on cell structure of sapotas** 665
S Rodrigues, MCF Gomes, MI Gallão and FAN Fernandes (Brazil)
- Towards a technological ripening index for olive oil fruits** 671
C Cherubini, M Migliorini, M Mugelli, P Viti, A Berti, E Cini and B Zanoni (Italy)
- Implications of spatial and temporal changes in concentration of pyruvate and glucose in onion (*Allium cepa* L.) bulbs during controlled atmosphere storage** 683
LA Abayomi and LA Terry (UK)
- Replacement of sulfur dioxide by lysozyme and oenological tannins during fermentation: influence on volatile composition of white wines** 688
F Sonni (Italy), MJC Bastante (Spain), F Chinnici, N Natali and C Riponi (Italy)
- Conjugated linoleic acid isomer concentrations in milk from high- and low-input management dairy systems** 697
G Butler (UK), M Collomb, B Rehberger (Switzerland), R Sanderson, M Eyre and C Leifert (UK)
- Production of lipase-catalyzed solid fat from mustard oil and palm stearin with linoleic acid by response surface methodology** 706
AM Alim, JH Lee and K-T Lee (South Korea)
- Exploring new potential health-promoting vegetables: glucosinolates and sensory attributes of rocket salads and related *Diplotaxis* and *Eruca* species** 713
LF D'Antuono (Italy), S Elementi and R Neri (Italy)

Short Communications

- Lyophilisation improves the extraction of PCR-quality community DNA from pig faecal samples** 723
R Ruiz and LA Rubio (Spain)
- Comparison of Minolta colorimeter and machine vision system in measuring colour of irradiated Atlantic salmon** 728
Y Yagiz, MO Balaban, HG Kristinsson, BA Welt and MR Marshall (USA)

Contents continued overleaf

Contents continued

***In situ* evaluation of the protein value of wheat grain corrected for ruminal microbial contamination**

731

JM Arroyo, J González, CA Rodríguez, MR Alvir and M Ouarti (Spain)

SCI — the only society connecting science, business & you

Whatever stage you are at in your career SCI can be an invaluable tool. If it is networking with potential employers, learning from fellow peers or taking an active role within your local regional group, SCI will be there to add to and support your further and ongoing development. Become an SCI member. Here are just a few of the great products and services you can get:

- Chemistry & Industry Magazine — Latest news features and reviews, direct to your desktop and to your door twice a month.
- 50% discount on Wiley books, 25% off Blackwell books and 20% off Oxford University press books (some exceptions apply).
- Discounted Conferences — 75% off our exciting conferences.
- Global Networking Opportunities — A chance to meet other like minded professionals working within the chemical industry and academia.
- Technical Interest Groups — Over 20 industry and topic specific groups to discuss, share and discover development within your sector.
- Writing and speaking opportunities — Present at one of our prestigious conferences and write for the SCI's renowned journals.
- 50% discount on SCI peer reviewed journals.
- International and Regional activity — Contribute to your local group and take advantage of free events and the local networking opportunities.
- SCI Awards — Achieve recognition of outstanding contribution to your field within the chemical industry, serving both the individual and innovation.
- Plus much more.
