Special Issue: 14th World Congress of Food Science and Technology

Editorial

Food for health and wellbeing: 14th World Congress of Food Science and Technology 1283

B Jiang, L Ni (China) and K Buckle (Australia)

Research Articles

Retention of aroma compounds: an interlaboratory study on the effect of the composition of food matrices on thermodynamic parameters in comparison with water 1285

M Kopjar (France, Croatia), I Andriot, A Saint-Eve, I Souchon and E Guichard (France)

Effect of phosphate treatments on microbiological, physicochemical changes of spent hen muscle marinated with Tom Yum paste during chilled storage 1293

P Wongwiwat, S Wattanachant and S Siripongvutikorn (Thailand)

Study of the optimisation of puffing characteristics of potato cubes by spouted bed drying enhanced with microwave 1300

W-q Yan, M Zhang, L-l Huang (China), J Tang (USA), AS Mujumdar (Singapore) and J-c Sun (China)

Discrimination of orange beverage emulsions with different formulations using multivariate analysis 1308

H Mirhosseini and CP Tan (Malaysia)

Physiological and quality responses of Chinese 'Suli' pear (*Pyrus bretschneideri* Rehd) to 1-MCP vacuum infiltration treatment 1317

S Chen, M Zhang (China) and S Wang (USA)

Effect of ethanol treatment on physiological and quality attributes of fresh-cut eggplant 1323

W Hu, A Jiang, M Tian, C Liu and Y Wang (China)

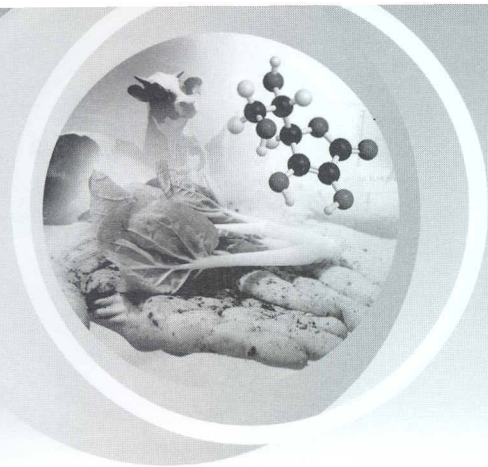

Thermostable L-arabinose isomerase from *Bacillus stearothermophilus* IAM 11001 for D-tagatose production: gene cloning, purification and characterisation 1327

L Cheng, W Mu and B Jiang (China)

Optimisation of lactic acid fermentation for improved vinegar flavour during roszy vinegar brewing 1334

Y Jiang, J Guo, Y Li, S Lin, L Wang and J Li (China)

Contents continued overleaf

Contents continued

- Isolation and characterisation of an oxygen, acid and bile resistant *Bifidobacterium animalis* subsp. *lactis* Qq08** 1340
Q Li, Q Chen, H Ruan, D Zhu and G He (China)
- Antimicrobial and antioxidant activities of the essential oil from *Herba Moslae*** 1347
J-e Li, S-p Nie, Z-h Qiu, M-j Che, C Li and M-y Xie (China)
- Optimisation of microwave-assisted extraction of polysaccharides from *Cyclocarya paliurus* (Batal.) Iljinskaja using response surface methodology** 1353
J-H Xie, M-Y Xie, M-Y Shen, S-P Nie, C Li and Y-X Wang (China)
- Consumers' purchase intention of organic food in China** 1361
S Yin, L Wu, L Du and M Chen (China)
- Food safety and consumer willingness to pay for certified traceable food in China** 1368
L Xu and L Wu (China)
- Determination of enantiomeric fractions of cypermethrin and *cis*-bifenthrin in Chinese teas by GC/ECD** 1374
H Kuang, H Miao, X Hou, Y Zhao, J Shen and Y Wu (China)

Short Communication

- Differentiation of bacteria using fatty acid profiles from gas chromatography–tandem mass spectrometry** 1380
Y Li, S Wu, L Wang, Y Li, F Shi and X Wang (China)
