International Year of  
**CHEMISTRY**

# Journal of the Science of Food and Agriculture

View online at [wileyonlinelibrary.com/journal/jsfa](http://wileyonlinelibrary.com/journal/jsfa)

## Review Communication

Contents continued

- L-Theanine: properties, synthesis and isolation from tea** 1931  
QV Vuong, MC Bowyer and PD Roach (Australia)

## Research Articles

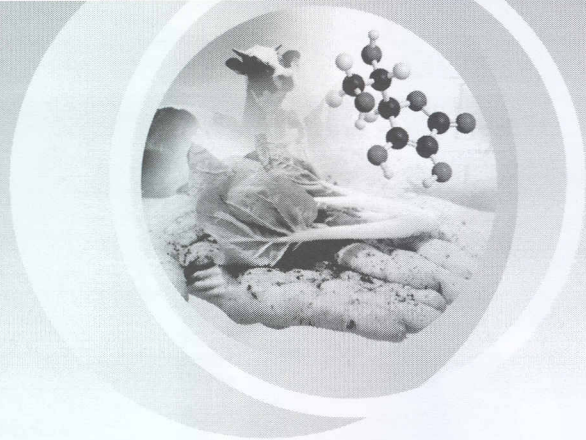

- Descriptive sensory analysis and free sugar contents of chestnut cultivars grown in North America** 1940  
MR Warmund, JR Elmore, K Adhikari and S McGraw (USA)
- Antibacterial activity of egg yolk antibody (IgY) against *Listeria monocytogenes* and preliminary evaluation of its potential for food preservation** 1946  
J Sui, L Cao and H Lin (China)
- A transgressive brown rice mediates favourable glycaemic and insulin responses** 1951  
T Karupaiah, CK Aik, TC Heen, S Subramaniam, AR Bhuiyan, P Fasahat, AM Zain and W Ratnam (Malaysia)
- Evaluation of ISSR markers for genetic diversity analysis in Anatolian Water Buffaloes** 1957  
I Aytekin, F Ozdil, U Zulkadir, S Boztepe and V Sariyel (Turkey)
- Evolution of the localisation and composition of phenolics in grape skin between veraison and maturity in relation to water availability and some climatic conditions** 1963  
Y Cadot, M Chevalier and G Barbeau (France)
- Differences in physicochemical properties of kernels of two rice cultivars during grain formation** 1977  
Y Cai, C Liu, W Wang and K Cai (China)
- Development of fortified biscuit using NaFeEDTA** 1984  
M Mohammadi, A-S Abedi, MH Azizi, FS Ahmadian and H Pouraram (Iran)
- A lysimeter study of nitrate leaching, optimum fertilisation rate and growth responses of corn (*Zea mays* L.) following soil amendment with water-saving super-absorbent polymer** 1990  
MR Islam (China, Bangladesh), S Mao, X Xue (China), AE Eneji (Nigeria), X Zhao and Y Hu (China)
- Effectiveness of a water-saving super-absorbent polymer in soil water conservation for corn (*Zea mays* L.) based on eco-physiological parameters** 1998  
MR Islam (China, Bangladesh), Y Hu, S Mao, J Mao (China), AE Eneji (Nigeria) and X Xue (China)
- Partial characterization of proteins from baru (*Dipteryx alata* Vog) seeds** 2006  
KS da Cruz, MA da Silva, O de Freitas and VA Neves (Brazil)
- Regional distribution of nitrogen fertilizer use and N-saving potential for improvement of food production and nitrogen use efficiency in China** 2013  
X Wang, D Cai (China), WB Hoogmoed and O Oenema (The Netherlands)

Contents continued overleaf

## Contents continued

- Influence of irradiation time and solution concentration on the photochemical degradation of EDDHA/Fe<sup>3+</sup>: effect of its photodecomposition products on soybean growth** 2024  
L Hernández-Apaolaza and JJ Lucena (Spain)
- Camelina sativa cake improved unsaturated fatty acids in ewe's milk** 2031  
M Szumacher-Strabel, A Cieslak, P Zmora, E Pers-Kamczyc, S Bielińska, M Stanisz and J Wójtowski (Poland)
- Application of plant-based antimicrobials for the growth inhibition of clostridia in pressed beet pulp silage** 2038  
F Emerstorfer, W Hein, R Resch, EM Poetsch, U Zitz and W Kneifel (Austria)
- Effect of a polyamine biosynthesis inhibitor on the quality of grape and red wine** 2045  
J Hudec, R Mazur, P Trebichalský, M Lacko-Bartošová (Slovakia), T Lošák (Czech Republic), J Musilová, P Chlebo and P Kováčik (Slovakia)
- Effects of *Euphorbia esula* L. (leafy spurge) on cattle and sheep *in vitro* fermentation and gas production** 2053  
RC Waterman, KD Richardson and SL Lodge-Ivey (USA)
- Volatile flavours in raw egg yolk of hens fed on different diets** 2061  
I Plagemann, K Zelena, U Krings and RG Berger (Germany)
- Effects of genetically modified T2A-1 rice on faecal microflora of rats during 90 day supplementation** 2066  
Y Yuan, W Xu, Y Luo, H Liu, J Lu, C Su and K Huang (China)
- Effect of harvest time on seed oil and protein contents and compositions in the oleaginous gourd *Lagenaria siceraria* (Molina) Standl** 2073  
AL Loukou (Ivory Coast), G Lognag, J-P Barthelemy, P Maesen, J-P Baudoin (Belgium) and BIA Zoro (Ivory Coast)
- Dehulled-micronised lupin (*Lupinus albus* L. cv. Multitalia) as the main protein source for broilers: influence on growth performance, carcass traits and meat fatty acid composition** 2081  
V Laudadio and V Tufarelli (Italy)
-  **Correlation between isotopic and meteorological parameters in Italian wines: a local-scale approach** 2088  
C Aghemo, A Albertino, R Gobetto and F Spanna (Italy)
- The aqueous extract of *Asparagus officinalis* L. by-product exerts hypoglycaemic activity in streptozotocin-induced diabetic rats** 2095  
J Zhao, W Zhang, X Zhu, D Zhao, K Wang, R Wang and W Qu (China)
- Essential oils and fatty acids composition of Tunisian and Indian cumin (*Cuminum cyminum* L.) seeds: a comparative study** 2100  
I Bettaieb, S Bourguou, J Sriti, K Msaada, F Limam and B Marzouk (Tunisia)
- Recycling coffee grounds and tea leaf wastes to improve the yield and mineral content of grains of paddy rice** 2108  
CK Morikawa and M Saigusa (Japan)

## Short Communication

### Ultrasound-assisted generation of ACE-inhibitory peptides from casein hydrolyzed with nanoencapsulated protease

2112

A Madadlou (Iran), D Sheehan (Ireland), Z Emam-Djomeh and ME Mousavi (Iran)

## SCI — the only society connecting science, business & you

Whatever stage you are at in your career SCI can be an invaluable tool. If it is networking with potential employers, learning from fellow peers or taking an active role within your local regional group, SCI will be there to add to and support your further and ongoing development. Become an SCI member. Here are just a few of the great products and services you can get:

- Chemistry & Industry Magazine — Latest news features and reviews, direct to your desktop and to your door twice a month.
- 50% discount on Wiley books, 25% off Blackwell books and 20% off Oxford University press books (some exceptions apply).
- Discounted Conferences — 75% off our exciting conferences.
- Global Networking Opportunities — A chance to meet other like minded professionals working within the chemical industry and academia.
- Technical Interest Groups — Over 20 industry and topic specific groups to discuss, share and discover development within your sector.
- Writing and speaking opportunities — Present at one of our prestigious conferences and write for the SCI's renowned journals.
- 50% discount on SCI peer reviewed journals.
- International and Regional activity — Contribute to your local group and take advantage of free events and the local networking opportunities.
- SCI Awards — Achieve recognition of outstanding contribution to your field within the chemical industry, serving both the individual and innovation.
- Plus much more.
