Cranberries: ripe for more cancer research?

2303

CC Neto (USA)

Research Articles

RIN transcription factor plays an important role in ethylene biosynthesis of tomato fruit ripening

2308

L Li, B Zhu, D Fu and Y Luo (China)

Isolation and anti-inflammatory effect of astragalins synthesized by enzymatic hydrolysis of tea seed extract

2315

H-B Lee, E-K Kim, S-J Park, S-g Bang, TG Kim and D-w Chung (Korea)

Impacts of phosphorus and zinc levels on phosphorus and zinc nutrition and phytic acid concentration in wheat (*Triticum aestivum* L.)

2322

X-w Yang, X-h Tian, X-c Lu, Y-x Cao and Z-h Chen (China)

Hypolipidaemic effects of dietary whole soybean curd (jeondubu) in rats

2329

KH Lee, YH Jeong, B Lee, W Kang and YS Choi (South Korea)

An attempt to define the sodium requirement of lactating dairy cows in a tropical environment

2333

W Thiangtum, A Yawongsa (Thailand, The Netherlands), JT Schonewille (The Netherlands), T Rukkawamsuk, C Yuangklang (Thailand), MWA Verstegen and WH Hendriks (The Netherlands)

Effects of albusin B (a bacteriocin) of *Ruminococcus albus* 7 expressed by yeast on growth performance and intestinal absorption of broiler chickens – its potential role as an alternative to feed antibiotics

2338

H-T Wang, C Yu, Y-H Hsieh, S-W Chen, B-J Chen and C-Y Chen (Taiwan)

Changes in scopoletin concentration in cassava chips from four varieties during storage

2344

BGJ Gnonlonfin (Benin, Denmark), F Gbaguidi, JD Gbenou, A Sanni (Benin) and L Brimer (Denmark)

Characteristics of papaya seed oils obtained by extrusion – expelling processes

2348

W-J Lee, M-H Lee and N-W Su (Taiwan)

Development of a fermented goats' milk containing *Lactobacillus rhamnosus*: in vivo study of health benefits

2355

S Salva, M Nuñez, J Villena, A Ramón, G Font and S Alvarez (Argentina)

Brazilian red propolis: unreported substances, antioxidant and antimicrobial activities

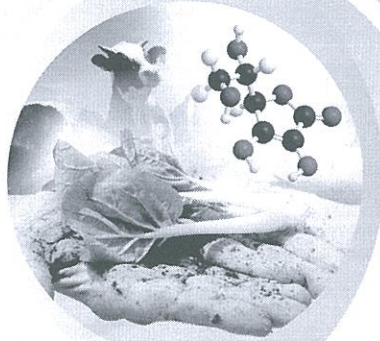

2363

AA Righi, TR Alves, G Negri, LM Marques, H Breyer and A Salatino (Brazil)

Effects of folic acid on the performance of suckling piglets and sows during lactation

2371

W Sheng-Ping, Y Yu-Long, Q Yin, L Li-Li, L Feng-Na, T Bi-E, T Xiang-Shan and H Rui-Lin (China)

SCI

Journal of the
Science of Food
and Agriculture

wileyonlinelibrary.com/journal/jsfa

Contents continued

- Molecularly imprinted solid-phase extraction combined with high-performance liquid chromatography for analysis of trace olaquinox residues in chick feeds** 2378
J Song, X Qiao, H Chen, D Zhao, Y Zhang and Z Xu (China)
- Organo-mineral fertilisers from glass-matrix and organic biomasses: a new way to release nutrients. A novel approach to fertilisation based on plant demand** 2386
A Trinchera, M Allegra, E Rea, G Rocuzzo, S Rinaldi, P Sequi and F Intrigliolo (Italy)
- Enzymatic changes in pectic polysaccharides related to the beneficial effect of soaking on bean cooking time** 2394
E Martínez-Manrique, C Jacinto-Hernández, R Garza-García, A Campos, E Moreno and I Bernal-Lugo (Mexico)
- Antioxidant activity and free radical-scavenging capacity of a selection of wild-growing Colombian plants** 2399
JC Argoti (Colombia), S Salido, PJ Linares-Palomino (Spain), B Ramírez, B Insuasty (Colombia) and J Altarejos (Spain)
- One-step multiplex PCR method for the determination of pecan and Brazil nut allergens in food products** 2407
Z Hubalkova and E Rencova (Czech Republic)
- Effects of enzymatic action on the formation of theabrownin during solid state fermentation of Pu-erh tea** 2412
Q Wang, C Peng and J Gong (China)
- Aflatoxin accumulation in whole crop maize silage as a result of aerobic exposure** 2419
L Cavallarin, E Tabacco, S Antoniazzi and G Borreani (Italy)
- Effect of cultivar and roasting technique on sensory quality of Bierzo roasted pepper** 2426
M Guerra, MA Sanz, JB Valenciano and PA Casquero (Spain)
- Effect of zinc and its form of supply on production and quality of coffee beans** 2431
Y Poltronieri, HEP Martinez and PR Cecon (Brazil)
- Partial purification and characterisation of cysteine protease in wheat germ** 2437
R Yang, J Song, Z Gu and C Li (China)
- Gene cloning and expression of a novel hypoglycaemic peptide from *Momordica charantia*** 2443
B-I Wang, W-j Zhang, J Zhao, F-j Wang, L-q Fan (China), Y-x Wu (Japan) and Z-b Hu (China)
- Differences in two-dimensional gel electrophoresis patterns of skeletal muscle myosin light chain isoforms between *Bos taurus*, *Sus scrofa* and selected poultry species** 2449
M Montowska and E Pospiech (Poland)
- Effect of xylose on the molecular and particle size distribution of peanut hydrolysate in Maillard reaction system** 2457
G Su, C Cui, J Ren, B Yang and M Zhao (China)
- Changes in volatile compound composition of *Antrodia camphorata* during solid state fermentation** 2463
Y Xia, B Zhang, W Li and G Xu (China)
- Bio-screening of a few green seaweeds from India for their cytotoxic and antioxidant potential** 2471
RC Vinayak, SA Sudha and A Chatterji (India)

Dietary plant materials reduce acrylamide formation in cookie and starch-based model systems 2477

F Zhu (Hong Kong), Y-Z Cai, J Ke (Singapore) and H Corke (Hong Kong)

Assessment of the effect of the non-volatile wine matrix on the volatility of typical wine aroma compounds by headspace solid phase microextraction/gas chromatography analysis 2484

JJ Rodríguez-Bencomo, C Muñoz-González, I Andújar-Ortiz, PJ Martín-Álvarez, MV Moreno-Arribas and MÁ Pozo-Bayón (Spain)

Effect of phenolic acids on the rheological properties and proteins of hard wheat flour dough and bread 2495

HM Han and B-K Koh (Korea)

Evaluation of genetic markers for identifying isolates of the species of the genus *Fusarium* 2500

M Watanabe (Japan), T Yonezawa (China), K-i Lee, S Kumagai, Y Sugita-Konishi, K Goto and Y Hara-Kudo (Japan)

SCI — the only society connecting science, business & you

Whatever stage you are at in your career SCI can be an invaluable tool. If it is networking with potential employers, learning from fellow peers or taking an active role within your local regional group, SCI will be there to add to and support your further and ongoing development. Become an SCI member. Here are just a few of the great products and services you can get:

- Chemistry & Industry Magazine — Latest news features and reviews, direct to your desktop and to your door twice a month.
- 50% discount on Wiley books, 25% off Blackwell books and 20% off Oxford University press books (some exceptions apply).
- Discounted Conferences — 75% off our exciting conferences.
- Global Networking Opportunities — A chance to meet other like minded professionals working within the chemical industry and academia.
- Technical Interest Groups — Over 20 industry and topic specific groups to discuss, share and discover development within your sector.
- Writing and speaking opportunities — Present at one of our prestigious conferences and write for the SCI's renowned journals.
- 50% discount on SCI peer reviewed journals.
- International and Regional activity — Contribute to your local group and take advantage of free events and the local networking opportunities.
- SCI Awards — Achieve recognition of outstanding contribution to your field within the chemical industry, serving both the individual and innovation.
- Plus much more.
