Journal of the Science of Food and Agriculture

Volume 91 • Issue No 4 • 15 March 2011

Perspective

Postharvest technology for developing countries: challenges and opportunities in research, outreach and advocacy

597

L Kitinoja (USA), S Saran, SK Roy (India) and AA Kader (USA)

Research Articles

Antioxidant activity of hard wheat flour, dough and bread prepared using various processes with the addition of different phenolic acids

604

H-M Han and B-K Koh (Korea)

Ripening of salted anchovy (*Engraulis anchoita*): development of lipid oxidation, colour and other sensorial characteristics

609

M Czerner, MC Tomás and MI Yeannes (Argentina)

Starch granule-associated proteins of hull-less barley (*Hordeum vulgare* L.) from the Qinghai-Tibet Plateau in China

616

C-P Wang, Z-F Pan, Z-X Nima, Y-W Tang, P Cai, J-J Liang, G-B Deng, H Long and M-Q Yu (China)

Wheat gluten-based materials plasticised with glycerol and water by thermoplastic mixing and thermomoulding

625

LS Zárte-Ramírez, I Martínez, A Romero, P Partal and A Guerrero (Spain)

Effect of irradiation, active and modified atmosphere packaging, container oxygen barrier and storage conditions on the physicochemical and sensory properties of raw unpeeled almond kernels (*Prunus dulcis*)

634

SF Mexis, KA Riganakos and MG Kontominas (Greece)

Expression of genes associated with ethylene-signalling pathway in harvested banana fruit in response to temperature and 1-MCP treatment

650

S-c Yan, J-y Chen, W-m Yu, J-f Kuang, W-x Chen, X-p Li and W-j Lu (China)

Higher bioavailability of isoflavones after a single ingestion of aglycone-rich fermented soybeans compared with glucoside-rich non-fermented soybeans in Japanese postmenopausal women

658

Y Okabe, T Shimazu and H Tanimoto (Japan)

Preharvest bagging with wavelength-selective materials enhances development and quality of mango (*Mangifera indica* L.) cv. Nam Dok Mai #4

664

V Chonhenchob, D Kamhangwong, J Kruenate, K Khongrat, N Tangchantra, U Wichai (Thailand) and SP Singh (USA)

Continued on inside back cover

- Sensorically and antimicrobially active metabolite production of *Lactobacillus* strains on Jerusalem artichoke juice** 672
Z Zalán (Hungary), J Hudáček (Czech Republic), M Tóth-Markus (Hungary), E Husová, K Solichová (Czech Republic), F Hegyi (Hungary), M Plocková, J Chumchalová (Czech Republic) and A Halász (Hungary)
- Effects of water-saving superabsorbent polymer on antioxidant enzyme activities and lipid peroxidation in oat (*Avena sativa* L.) under drought stress** 680
MR Islam (China, Bangladesh), X Xue, S Mao, C Ren (China), AE Eneji (Nigeria) and Y Hu (China)
- Effects of rice dreg protein and its hydrolysate on growth performance and small intestine morphology of early-weaned rats** 687
X Li, H Xiong, K Yang, D Peng, W Li, Y Yin and J Liu (China)
- Schisandrin enhances dendrite outgrowth and synaptogenesis in primary cultured hippocampal neurons** 694
S-H Yang, C-J Jeng, C-H Chen, Y Chen, Y-C Chen and S-M Wang (Taiwan)
- Volatile compounds and antimicrobial and antioxidant activities of the essential oils of the needles of *Pinus densiflora* and *Pinus thunbergii*** 703
J-S Park and G-H Lee (Korea)
- Contribution of sulfur-containing compounds to the colour-inhibiting effect and improved antioxidant activity of Maillard reaction products of soybean protein hydrolysates** 710
M Huang, P Liu, S Song, X Zhang (China), K Hayat (Pakistan), S Xia, C Jia and F Gu (China)
- Effect of free or protein-associated soy isoflavones on the antioxidant status in rats** 721
ACL Barbosa, FM Lajolo and MI Genovese (Brazil)
- Structural and thermal characterization of galactomannans from genus *Gleditsia* seeds as potential food gum substitutes** 732
J-x Jiang, H-I Jian (China), C Cristhian (Sweden), W-m Zhang and R-c Sun (China)
- Comparative evaluation of oxidative enzyme activities during adventitious rooting in the cuttings of grapevine rootstocks** 738
C Kose, S Erdal, O Kaya and O Atici (Turkey)
- Dry matter content and fruit size affect flavour and texture of novel *Actinidia deliciosa* genotypes** 742
S Nardoza, J Gamble, LG Axten, MW Wohlers, MJ Clearwater, J Feng and FR Harker (New Zealand)
- Influence of shriveling on berry composition and antioxidant activity of Cabernet Sauvignon grapes from Shanxi vineyards** 749
Y Fang, J Meng, A Zhang, J Liu, T Xu, W Yu, S Chen, H Li, Z Zhang and H Wang (China)
- Effects of molecular characteristics of on konjac glucomannan glass transitions of potato amylose, amylopectin and their mixtures** 758
L Guo, Q Liang and X Du (China)
- Effects of organic and conventional growth systems on the content of carotenoids in carrot roots, and on intake and plasma status of carotenoids in humans** 767
M Soltoft, A Bysted, KH Madsen, AB Mark, SG Bügel, J Nielsen and P Knuthsen (Denmark)
- Studies on the antioxygenic activity of bitter melon (*Momordica charantia*) and its fractions using various *in vitro* models** 776
A Padmashree, GK Sharma, AD Semwal and AS Bawa (India)
