## Special Issue: First International Conference on Organic Food Quality and Health Research

### Editorial

---

#### **Organic food quality: from field to fork**

2751

J Kahl (Germany)

### Spotlight

---

#### **First steps in the development of a psychological test on the effects of food on mental well-being**

2753

U Geier, I Hermann, K Mittag and K Buchecker (Germany)

### Perspectives

---

#### **Overcoming undernutrition with local resources in Africa, Asia and Latin America**

2757

MB Krawinkel (Germany)

#### **Organic food quality: a framework for concept, definition and evaluation from the European perspective**

2760

J Kahl, T Baars (Germany), S Bügel (Denmark), N Busscher (Germany), M Huber (The Netherlands), D Kusche (Germany), E Rembiałkowska (Poland), O Schmid, K Seidel (Switzerland), B Taupier-Letage (France), A Velimirov (Austria) and A Załęcka (Poland)

#### **The challenge of evaluating health effects of organic food; operationalisation of a dynamic concept of health**

2766

M Huber, MH Bakker, W Dijk, HAB Prins and FAC Wiegant (The Netherlands)

### Review

---

#### **Comparison of nutritional quality between conventional and organic dairy products: a meta-analysis**

2774

E Palupi (Germany), A Jayanegara (Indonesia), A Ploeger and J Kahl (Germany)

### Research Articles

---

#### **Characteristics and consumption patterns of Australian organic consumers**

2782

L Oates, M Cohen and L Braun (Australia)

#### **Organic and conventional nonflavored yogurts from the Italian market: study on sensory profiles and consumer acceptability**

2788

T Gallina Toschi, A Bendini, S Barbieri, E Valli (Italy), ML Cezanne (Switzerland), K Buchecker (Germany) and M Canavari (Italy)

SCI

Journal of the  
Science of Food  
and Agriculture

*Contents continued*

- Influence of growing system on nitrate accumulation in two varieties of lettuce and red radicchio of Treviso** 2796  
M Lucarini, L D'Evoli, S Tufi, P Gabrielli, S Paoletti, S Di Ferdinando and G Lombardi-Boccia (Italy)
- Health-promoting phytochemicals of Italian common wheat varieties grown under low-input agricultural management** 2800  
R Di Silvestro, I Marotti, S Bosi, V Bregola (Italy), AS Carretero (Spain), I Sedej, A Mandic, M Sakac (Serbia), S Benedettelli and G Dinelli (Italy)
- Effects of organic and conventional production systems and cultivars on the technological properties of winter wheat** 2811  
J Ceseviciene, A Slepetiene, A Leistrumaite, V Ruzgas and J Slepety (Lithuania)
- Sensory, yield and quality differences between organically and conventionally grown winter wheat** 2819  
CM Arncken, P Mäder, J Mayer and FP Weibel (Switzerland)
- Healthy food from organic wheat: choice of genotypes for production and breeding** 2826  
A Hussain, H Larsson, R Kuktaite and E Johansson (Sweden)
- Effects of organic farming and genotype on alimentary and nutraceutical parameters in tomato fruits** 2833  
C Migliori, LF Di Cesare, R Lo Scalzo, G Campanelli and V Ferrari (Italy)
- The influence of organic and conventional cultivation systems on the nutritional value and content of bioactive compounds in selected tomato types** 2840  
E Hallmann (Poland)
- Furanocoumarins in celeriac from different farming systems: a 3-year study** 2849  
V Schulzová, L Babička and J Hajšlová (Czech Republic)
- Multi-method comparison of carrot quality from a conventional and three organic cropping systems with increasing levels of nutrient recycling** 2855  
F Paoletti, A Raffo (Italy), HL Kristensen, K Thorup-Kristensen (Denmark), R Seljåsen, T Torp (Norway), N Busscher, A Ploeger and J Kahl (Germany)
- Effect of legume grains as a source of dietary protein on the quality of organic lamb meat** 2870  
A Bonanno, G Tornambè, A Di Grigoli, V Genna, V Bellina, G Di Miceli and D Giambalvo (Italy)
- Influence of different cultivation methods on carbohydrate and lipid compositions and digestibility of energy of fruits and vegetables** 2876  
H Jørgensen, KE Bach Knudsen and C Lauridsen (Denmark)
- Experimental improvement of cow milk fatty acid composition in organic winter diets** 2883  
T Baars (Germany, Switzerland), J Wohlers, D Kusche and G Jahreis (Germany)
- Fatty acid, tocopherol and carotenoid content in herbage and milk affected by sward composition and season of grazing** 2891  
MK Larsen, XC Fretté, T Kristensen, J Eriksen, K Søegaard and JH Nielsen (Denmark)
- Differences in whey protein content between cow's milk collected in late pasture and early indoor feeding season from conventional and organic farms in Poland** 2899  
B Kuczyńska, K Puppel, M Gołębiewski, E Metera, T Sakowski and K Słoniewski (Poland)

---

**Relationships between physiological indicators in blood, and their yield, as well as chemical composition of milk obtained from organic dairy cows**

2905

T Sakowski, B Kuczyńska, K Puppel, E Metera, K Słoniewski and J Barszczewskic (Poland)

**Impact of organic and conventional carrots on intestinal and peripheral immunity**

2913

M Roselli, A Finamore, E Brasili, G Capuani (Italy), HL Kristensen (Denmark), C Micheloni (Rome) and E Mengheri (Italy)

---

**Short Communication**

---

**Health effects of an organic diet — consumer experiences in the Netherlands**

2923

LPL van de Vijver and MET van Vliet (The Netherlands)

---

**SCI — the only society connecting science, business & you**

Whatever stage you are at in your career SCI can be an invaluable tool. If it is networking with potential employers, learning from fellow peers or taking an active role within your local regional group, SCI will be there to add to and support your further and ongoing development. Become an SCI member. Here are just a few of the great products and services you can get:

- Chemistry & Industry Magazine — Latest news features and reviews, direct to your desktop and to your door twice a month.
- 50% discount on Wiley books, 25% off Blackwell books and 20% off Oxford University press books (some exceptions apply).
- Discounted Conferences — 75% off our exciting conferences.
- Global Networking Opportunities — A chance to meet other like minded professionals working within the chemical industry and academia.
- Technical Interest Groups — Over 20 industry and topic specific groups to discuss, share and discover development within your sector.
- Writing and speaking opportunities — Present at one of our prestigious conferences and write for the SCI's renowned journals.
- 50% discount on SCI peer reviewed journals.
- International and Regional activity — Contribute to your local group and take advantage of free events and the local networking opportunities.
- SCI Awards — Achieve recognition of outstanding contribution to your field within the chemical industry, serving both the individual and innovation.
- Plus much more.
