

The conomist

David Cameron's broken promises

Putin forever, unfortunately

Samsung, Asia's new model company

Amazon, Walmart of the web

Was Einstein wrong?

SEPTEMBER 1ST-7TH 2011

Economist.com

Until politicians actually do something
about the world economy...

BE AFRAID

Feature cover
 As politicians act more
 ly, the world economy
 keep heading towards a
 black hole, page 13. Who's to
 blame in Europe, pages
 8. The emerging
 economies are winning the
 currency war. No one is
 winning, page 79.
 Financial markets have been
 playing a split personality:
 Dow on wood, page 81. Plans
 for a Tobin tax, page 82

The outsider
- 44 Conservation in China**
A flap
- 45 Banyan**
Haier's story, China's story

Middle East and Africa

- 46 Democracy in Africa**
Progress of sorts
- 47 Chinese-African attitudes**
Not as bad as they say
- 47 Côte d'Ivoire**
On the mend
- 48 Democracy in the Gulf**
Let's take it slowly
- 49 Yemen's president**
Another trick up his sleeve
- 49 Israel's opposition**
A lively new leader

Europe

- 53 Russia's presidency**
Guess who's back
- 54 Alexei Kudrin**
His final decision
- 54 Corruption in France**
Bad smells
- 55 Hungary's government**
Not paid in full
- 56 Charlemagne**
Keep the euro fire burning

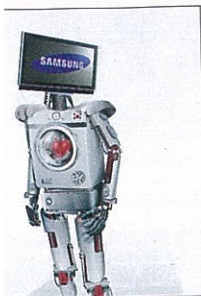

David Cameron Britain's prime minister needs to up his game: leader, page 17. A sickly economy needs more monetary ease and less fiscal squeeze, page 57. The performance of Ed Miliband at Labour's conference was ominous—for his party, page 59. Labour's worrying new capitalism: Bagehot, page 60

Putin forever His return may bring clarity over who is in charge, but it will still be bad for Russia: leader, page 15. How exactly can Putin manage to stay in power? Page 53. Alexei Kudrin, one of the few competent policymakers in Russia, gives up, page 54

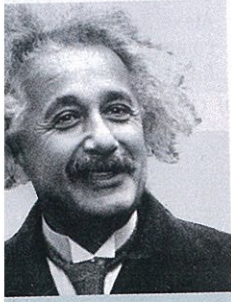

Football in Brazil The country hopes that the 2014 World Cup will boost its image, but its football federation is shrouded in sleaze, page 38

Its success has been... But its model... to copy: leader... the world's biggest... on-technology firm... nto green... y and health care... 77. Globalisation... ese characteristics:... page 45

The internet giant's... et computer fits its... of developing big... es by charging small... age 65

stein wrong? What... experiment that... to contradict his theory... ivity really mean?... page 15. America's... particle accelerator is... itched off, page 85... ; cannot subsist on... ments alone, page 86

Britain

- 57 **Tackling the slump**
Open the taps, loosen the vice
- 58 **The National Trust**
Power in the land
- 59 **The Labour Party**
The avenger
- 60 **Bagehot**
Ed Miliband's dangerous dream

International

- 63 **Who should run the internet?**
Plaything of the powerful
