

08 Processing

UK meat processing equipment company AEW Delford Systems has now launched complete meat processing lines for fast and efficient product production.

12 Show preview: Eurocarne

The Italian manufacturers of machinery, plants and equipment for food production, processing and preservation are optimistic about the future. The challenge for the next two years involves new markets, large-scale distribution and niche markets to be met through top performance of the industry.

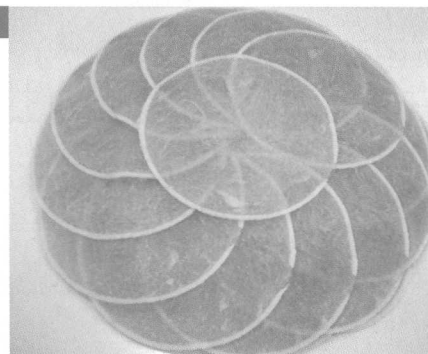

16 Ingredients

In a world witnessing an increase of diet-related diseases, processed foods are included among the major culprits. For the meat sector, the main issues revolve around high fat and sodium content. The trouble, however, is that those elements are also related to valued sensory characteristics.

27 Slicing

Food processors are challenged to deliver convenience food products at the most competitive prices, together with a huge variety in regards to portion forms and package styles.
