# Bulletin of Engineering Geology and the Environment

Volume 68 • Number 3 • August 2009

## ORIGINAL PAPERS

**Comparison of liquid limit values determined using the hard and soft base Casagrande apparatus and the cone penetrometer**

M. Özer 289

**A case study from Koyulhisar (Sivas-Turkey) for landslide susceptibility mapping by artificial neural networks**

I. Yilmaz 297

**Long-term water quality monitoring of the Sejnane reservoir in northeast Tunisia**

B. Zouabi Aloui · M. Gueddari 307

**Environmental degradation related to mining, urbanization and pollutant sources: Poços de Caldas, Brazil**

L.V. Zuquette · O.J. Pejon · M. Dantas-Ferreira · J.B. Palma 317

**The natural radioactivity levels and radiation hazard of pumice from the East Mediterranean Region of Turkey**

A.M. Kilic · A.S. Aykamis 331

**Relationship between PSV and in situ friction: a Norwegian case study**

E. Erichsen 339

**The effect of rock classes on the relation between uniaxial compressive strength and point load index**

S. Kahraman · O. Gunaydin 345

**The effect of geology on the suitability of the Olynthios river dam site, Northern Greece**

T. Makedon · N. Chatzigogos · D. Vogiatzis · G. Dimopoulos · D. Karamouzis 355

**Analysis of the geo-hazards triggered by the 12 May 2008 Wenchuan Earthquake, China**

R.Q. Huang · W.L. Li 363

**Landslide dams triggered by the Wenchuan Earthquake, Sichuan Province, south west China**

Q. Xu · X.-M. Fan · R.-Q. Huang · C.V. Westen 373

**Monitoring a well in a clay layer: revisiting the time lag problem**

R.P. Chapuis 387

**Engineering geological evaluation and preliminary support design for the metro extension tunnel, Ankara, Turkey**

A. Özsan · H. Başarır · S. Yüceel · Ö. Cücen 397

**Non-destructive testing of some Higher Himalayan Rocks in the Satluj Valley**

V. Gupta 409

**Geotechnical analysis of two Nigerian soils for use as clay liners**

S.E. Obrike · C.C. Osadebe · S.S. Omoniyi 417

**Analyse du comportement d'un sol argileux sous sollicitations hydriques cycliques. Analysis of the behaviour of a natural expansive soil under cyclic drying and wetting**

G. Zemenu · A. Martine · C. Roger 421

## DISCUSSION

**Discussion on the paper entitled "Indentation hardness test to estimate the sawability of carbonate rocks" by S. Kahraman and O. Gunaydin. Bull Eng Geol and Environ 67(2008): 507–511.**

DOI: 10.1007/s10064-008-0162-1

S. Yagiz 437

## REPLY

**Reply to Yagiz's discussion on Kahraman and Gunaydin (2008) Indentation hardness test to estimate the sawability of carbonate rocks.**

**Bull Eng Geol Environ 67:507–511**

S. Kahraman · O. Gunaydin 441

Cover: Huge boulders moved by Typhoon Toraji, Taiwan
