Multipollutant Air Quality Management

FEATURES

Clean Energy in Western Canada: Challenges and Opportunities

To coincide with A&WMA's 2010 Annual Conference & Exhibition in Calgary, Alberta, Canada later this month, the June *EM* focuses on Western Canada's unique (and not so unique) challenges and opportunities on the path toward clean energy.

SPECIAL FEATURE

A Summary of the 40th Annual A&WMA Critical Review: Multipollutant Air Quality Management

by William Pennell and George Hidy, *NARSTO Multipollutant Air Quality Management Assessment*

In the 40th Annual A&WMA Critical Review, the authors move beyond the narrative of the 2007 NARSTO assessment, *Air Quality Management in the United States*, and offer updated opinions on the potential advantages of risk- and results-based air quality management and on the barriers to its implementation.
