ournal upational Environmental ene

A Joint Publication of ACGIH[®] and AIHA[®]

NOW COVERED BY ISI

IN THIS ISSUE Incidence of Percutaneous Injuries and

Non-Reporting Rates Among First-Aid **Responders** in Taiwan

Health Care Workers' Mobile Phones: A Potential Cause of Microbial Cross-Contamination Between Hospitals and Community

Field Application of the Nanoparticle Emission Assessment Technique (NEAT): Task-Based Air Monitoring During the Processing of Engineered Nanomaterials (ENM) at Four Facilities

Variation in Penetration of Submicrometric Particles Through Electrostatic Filtering Facepieces During Exposure to Paraffin Oil Aerosol

Journal of Occupational and Environmental Hygiene

Volume 9, Number 9 September 2012
