

journal of dairy research

Volume 75 Number 4 November 2008

Original Articles

- Rheology of the gel formed in the California Mastitis Test
CJR Verbeek, SS Xia and D Whyte 385–391
- Molecular methods for identification of *Lactobacillus delbrueckii* subsp. *bulgaricus* and *Streptococcus thermophilus* using methionine biosynthesis and 16S rRNA genes
A Cebeci and GC Gürakan 392–398
- Effect of diet supplementation with sunflower oil on milk production, fatty acid profile and ruminal fermentation in lactating dairy ewes
G Hervás, P Luna, AR Mantecón, N Castañares, MA de la Fuente, M Juárez and P Frutos 399–405
- Differential expression of ABC transporters and their regulatory genes during lactation and dry period in bovine mammary tissue
C Farke, HHD Meyer, RM Bruckmaier and C Albrecht 406–414
- On heating milk, the dissociation of κ -casein from the casein micelles can precede interactions with the denatured whey proteins
SG Anema 415–421
- Coagulase-negative staphylococci isolated from bovine extramammary sites and intramammary infections in a single dairy herd
S Taponen, J Björkroth and S Pyörälä 422–429
- Detection of QTL for milk protein percentage in Italian Friesian cattle by AFLP markers and selective genotyping
E Milanese, R Negrini, F Schiavini, L Nicoloso, R Mazza, F Canavesi, F Miglior, A Valentini, A Bagnato and P Ajmone-Marsan 430–438
- Butter making from caprine creams: Effect of washing treatment on phospholipids and milk fat globule membrane proteins distribution
S Lamothe, G Robitaille, D St-Gelais and M Britten 439–443
- Molecular typing of *Staphylococcus aureus* isolated from Italian dairy products on the basis of coagulase gene polymorphism, multiple-locus variable-number tandem-repeat and toxin genes
S Morandi, M Brasca, R Lodi and L Brusetti 444–449
- The rebodding of stirred yoghurt: interactions between proteins
M Renan, F Guyomarc'h, V Arnoult-Delest, D Pâquet, G Brulé and M-H Famelart 450–456
- T lymphocyte proliferative capacity and CD4⁺/CD8⁺ ratio in primiparous and pluriparous lactating cows
J Mehrzad and X Zhao 457–465
- A method for estimation of urea using ammonia electrode and its applicability to milk samples
R Sharma, YS Rajput, S Kaur and SK Tomar 466–470
- Performance of lactating dairy cows fed varying levels of total mixed ration and pasture
RE Vibart, V Felner, JC Burns, GB Huntington and JT Green Jr 471–480
- Effect of α_{s1} -casein (*CSN1S1*) genotype on milk *CSN1S1* content in Malagueña and Murciano-Granadina goats
F Caravaca, M Amills, J Jordana, A Angiolillo, P Agüera, C Aranda, A Menéndez-Buxadera, A Sánchez, J Carrizosa, B Urrutia, A Sánchez and JM Serradilla 481–484
- Relationships between luteal activity, fertility, blood metabolites and body condition score in multiparous Estonian Holstein dairy cows under different management
J Samarütel, A Waldmann, K Ling, H Jaakson, T Kaart, A Leesmäe and O Kärt 485–490
- Pasteurized whole milk confers reduced susceptibilities to the antimicrobial agents trimethoprim, gatifloxacin, cefotaxime and tetracycline via the *marRAB* locus in *Escherichia coli*
Y Peng, RL Hernandez, RR Crow, SE Jones, SA Mathews, AM Arnold, EF Castillo, JM Moseley and MF Varela 491–496
- Anti-inflammatory effect of yoghurt in an experimental inflammatory bowel disease in mouse
N Gobbato, M Rachid and G Perdigón 497–504
