

Features

- 1125** *Feature:* Condition Assessment of Bridge Decks by Complementary Impact/Echo and Ground Penetrating Radar
by Nenad Gucunski, Carl Rascoe, Dryver Huston and Frank Jalinoos
- 1130** *Feature:* Integration of Ground Penetrating Radar and Infrared Thermography for Bridge Deck Condition Testing
by Kenneth R. Maser
- 1138** *Feature:* Review and Comparison of Shearography and Thermography for Nondestructive Testing
by Y.S. Chen, Y.Y. Hung, L. Long and Y.H. Huang
- 1144** *Feature:* Rail Surface Characterization
by Thomas R. Hay, Subash B. Jayaraman, Ethan M. Ray and D. Robert Hay
- 1152** *Product Spotlight:* Ground Penetrating Radar

Technical Papers

- 1173** *Technical Paper:* Relationship between Impact/Echo Response and Structural Behavior of Retrofitted Concrete Girders during Loading
by A.S. Zein, S.L. Gassman and K.A. Harries
- 1182** *Technical Paper:* Impact/Echo and Low Frequency Ultrasonic Testing for Assessment of Damage to Concrete Blocks Exposed to Sodium Fire
by Anish Kumar, K.V. Rajkumar, Govind K. Sharma, K.B. Dayalan, V. Venkatachalapathy, T. Jayakumar, C.S. Pillai, S.E. Kannan and Baldev Raj
- 1189** *Technical Paper:* Estimation of Density Variation in Vibrocompacted Boron Carbide Capsules by X-ray Radiography
by T. Saravanan, S. Bagavathiappan, John Philip, T. Jayakumar and Baldev Raj

Getting Involved

The Certification Management Council is looking for qualified individuals to serve three-year terms as full, special or associate CMC members.

The Society is also seeking qualified candidates for the secretary/treasurer position in preparation for the 2009 ASNT elections. Information on the CMC and secretary/treasurer eligibility requirements can be found in Society News on page 1161.

In This Issue

This issue includes articles exploring the use of ground penetrating radar as a condition assessment tool for infrastructural applications. Technical papers on various applications of ultrasonic and radiographic testing, as well as feature articles on rail testing and comparing shearography and thermography round out the issue.

Inside ASNT
