

## Features

- 901** *NDT Literature Showcase*
- 910** *Feature: Course in Eddy Current Nondestructive Testing to Pilot New Online Graduate Certificate in NDT*  
by Nicola Bowler
- 914** *Feature: Development of an Undergraduate Course on NDT*  
by Piervincenzo Rizzo
- 917** *Feature: Development of an Inspection Measurement Lab at California State University, Long Beach*  
by Parviz Yavari
- 921** *Product Spotlight: NDT Software*
- 923** *NDT Web Sightings*
- 931** *Feature: Selection of Phased Array Parameters for Weld Testing*  
by Anmol S. Birring
- 936** *Education Forum*
- 944** *Feature: Survey Assesses Member Satisfaction and Identifies NDT Industry Challenges*  
by Senior Manager of Marketing and Membership Betsy J. Blazar

## Technical Papers

- 949** *Technical Paper: Structural Testing of a Nickel Based Superalloy Metal Foam via NDT and Finite Element Analysis*  
by Ali Abdul-Aziz, G. Abumeri, Mohit Garg and P.G. Young
- 955** *Technical Paper: Characterization of Manufacturing and Maintenance of Aerospace Composite Discontinuities Using Infrared Thermography*  
by Pierre Servais, Nathalie Gerlach, Jason Habermehl, Clemente Ibarra-Castanedo and Xavier Maldague
- 963** *Technical Paper: Magnetic Hysteresis of Resistance Spot Welded Interstitial Free Steels*  
by Gopa Banerjee, T.K. Pal and A. Mitra

## In This Issue

This issue of *Materials Evaluation* focuses on NDT education, and includes articles from winners of the ASNT Faculty Grant exploring new approaches to NDT instruction within and outside of the classroom. These features begin on page 910.
